Breast Cancer Database (BCD): A Database of the Genomic, Transcriptomic, Proteomic and Drug-induced Molecular Alterations in Breast Cancer

Ph.D. thesis by Telikicherla Deepthi¹,²

Under the guidance of

Dr. S. Sujatha Mohan¹,²,³ and Dr. Y. L. Ramachandra²

¹ Institute of Bioinformatics, International Tech Park, Bangalore 560 066, India
² Department of Biotechnology and Bioinformatics, Kuvempu University, Shankaraghatta, Karnataka, India
³Research Unit for Immunoinformatics, RIKEN Research Center for Allergy and Immunology, RIKEN Yokohama Institute, Kanagawa-230 0045, Japan

August – 2011
Breast Cancer Database (BCD): A Database of the Genomic, Transcriptomic, Proteomic and Drug-induced Molecular Alterations in Breast Cancer

Date of registration: 24-05-2007 Registration Number: 1059

Telikicherla Deepthi, M.Sc.

Ph.D. Scholar
Institute of Bioinformatics
Unit 1, 7th Floor, Discoverer Building
International Tech Park Bangalore
Whitefield road, Bangalore - 560 066
Karnataka, India

Under the guidance of

S. Sujatha Mohan, M.Phil., Ph.D.

Faculty Scientist
Institute of Bioinformatics
Unit 1, 7th Floor
Discoverer Building
International Tech Park Bangalore
Whitefield road, Bangalore - 560 066
Karnataka, India

Y. L. Ramachandra, Ph.D.

Professor
Department of Biotechnology and Bioinformatics
Kuvempu University
Shankaraghatta, Shimoga- 577 451
Karnataka, India
