Acknowledgements

Although a few words do not do justice to their contribution I would like to thank the following people for making this work successful.

Dr. Riaz Mahmood my supervisor and guide, for taking me as his student and allowing me to pursue my research interests, for his guidance and constant encouragement, endless references and pointers, for his continuous interest in the critical reading of the manuscript and his immense academic support throughout the course of my work.

I wish to take this opportunity to express my sincere gratitude to Dr. B. Abdul Rahiman, my co-guide and Professor, Department of Biotechnology and Bioinformatics, for his ever willing assistance, moral support and constant encouragement during my PhD programme in Biotechnology.

I sincerely thank Dr. V. Krishna, and chairman, Dept. of Biotechnology and the other faculty of the Department for their encouragement and co-operation.

Special thanks to Dr. Akhilesh Pandey, JHMI Baltimore, Mr. Harsha Gowda and Mr. Gandhi at Institute of Bioinformatics, Bangalore for their support in providing access to their databank and research material.

My heartfelt thanks to Guneeth, Kalaivani, Nithya Devi, Vandhana, Sudha, Sphoorthy, Vivek, Ajit, Kalaiselvi, Kalaiarasai, Prem, Vaidyanathan, Manoj, Soundarya, Mohan, Karthik, Samer, Arun, Rajasekar, Vignesh, Lokesh, Vinyl, Princy, Vinayak, Alex, Siva(Drug designing) and Prathap for their great help for completion of this work and without their co-operation this would not have happened.

My father for his tireless moral constant encouragement, unwavering support and immense generosity.

My mother, brother, sister and mother-in-law for guiding and supporting me so far for pursuing my work

My son and daughter for all the times I wasn’t there; for all those precious moments we may have missed forever.
