ACKNOWLEDGEMENT

At long last the moment has come to look into the deeper layers of heart, which is filled with the feelings of togetlierness and loneliness, consolation and satisfaction. Some are momentary and some are permanent but both involve a number of persons to whom I acknowledge my warm regards.

I owe my heartfelt gratitude and thanks to the research supervisor of my Ph.D. program, Dr. M. S. Rao, Senior Scientist, Division of Entomology and Nematology, Indian Institute of Horticultural Research (IIHR), Hessaraghatta Lake P.O. Bangalore for his valuable guidance, encouragement and moral support during my Ph.D. program. Such bounties were more than I deserved, without which I wouldn’t have been able to reach my destiny. I just find it difficult to forget the ease with which he could instil the confidence and optimism in me through his looks, smile and cherishismatic personality. Mere words of mine can’t adequately express my deep sense of gratitude and respect to him.

I express my deep sense of reverence and gratitude to esteemed chairman of my advisory committee, Dr. Rahiman B. A., Professor and Head, Department of P. G. Studies and Research in Biotechnology, Kuvempu University, Jnana Sahyadri, Shankaraghatta, Shimoga, for his excellent guidance, encouragement, critical analysis throughout the course of this investigation and incredible help during IIHR affiliation.

I sincerely thank Dr. S. D. Shikamany, Director, IIHR, Bangalore for generosity to conduct my Ph. D research in this distinguished institute. With sense of pride I would like to place on record my sincere thanks to Dr. M. Krishna Reddy, Senior Scientist, Virology Laboratory, Division of Plant Pathology, IIHR, Bangalore who has taken great pains, rendered worthy suggestions and constructive criticisms during the course of investigation, which improved the thesis substantially.

I express my deep sense of gratitude to Dr. Abraham Verghese, Dr. R.D. Rawal, Dr. Akella Vani, Dr. Jhansi Rani, Dr. V. Krishna, Sri Sriram, Sri Rajendran, for their help during the course of my research work. I am thankful to all the staff members of Division of Entomology and Nematology and Division of Plant Pathology for their help during my research.
On a personal note, I wish to express my sincere thanks to Miss Lakshmi Raman, SRF Division of Plant Pathology, IIHR, Bangalore for helping me during the course of molecular investigations.

The Senior Research Fellowship (CSIR-SRF), awarded for my Ph. D. programme by the Council of Scientific and Industrial Research (CSIR), New Delhi is sincerely acknowledged.

Acknowledging the confidence, moral strength and inspiration showered upon me by my sister Deepa, brother Deepak and relatives of my family should give me immense pleasure herewith.

I wonder in what way should I express my thanks to all my near and dear friends, Maiya, Ravi, C.L. Naik, Neeta, Shylaja, Sreedevi, Rashmi J., Liril, Smita, Devaraj, Madhuvanti, Suresh, Shivakumar in whose company I never felt my work a burden..

My special thanks are to Gubbanna, Anantha padmanabha and Manju who made my research easy.

I find no suitable words to express my profound indebtedness and heartfelt sense of gratitude to Dr. P. Parvatha Reddy, Dr. N.K. Krishna Kumar, and Sri Gadagimath who have practically put their effort to get this institution affiliated as Ph.D. research centre under Kuvempu University.

I shall avail this opportunity to express sincere gratitude and respect to my beloved parents Sri Ganapayya, Smt. Chandrabhagi, brothers-in-law and sisters-in-law who sacrificed a lot for me, without their encouragement and affection I would not have come up to this level.

Any omission in this brief acknowledgement doesn’t mean lack of gratitude.

Bangalore 3rd December, 2003

(Dhananjay Naik)
