PLATE 4
PLATE 9
PLATE 13
The bioactive fraction collected from column chromatography showing three spots of different Rf values by TLC

PLATE 17
TLC plate with single spot showing only one compound present after purification of the bioactive fraction

PLATE 18
Different fractions collected by column chromatography

Crystals of compound CPR8 after purification of fraction CM 5:1 8th

PLATE 19
PLATE 28
PLATE 23
Separation of compounds by column chromatography present in ethyl alcohol extract of
*C. procera* leaves in different mobile phase with indication of bands.
