ACKNOWLEDGEMENT

I thank the Almighty, the father of all, whose blessings have enabled me to accomplish my research work successfully, for the strength that keep us standing and for the hope that keep us believing that this affiliation would be possible and more interesting.

Time flies. Four years passed since I studied at Dayalbagh Educational Institute, DEI, Dayalbagh, Agra. During this time, I experienced different feelings in my life: happiness, sadness, turbulence and peacefulness. These experiences made my life more colourful and my mind stronger.

During these few years of my study, I wish to thank many people whom I have the fortune to work with. First of all, I would like to thank Professor J.N. Srivastava for giving me the opportunity to study in the Department of Botany. I would also like to thank him for his guidance and advice throughout my study. Again I would like to thank him for his support, encouragement and understanding during the tough times of my candidature.

Early in the process of completing this project, it became quite clear to me that a researcher cannot complete a Ph.D. thesis alone. Although the list of individuals I wish to thank extends beyond the limits of this format, I would like to thank the following persons for their dedication, prayers, and cooperation:

It is my proud privilege to express my sincere thanks and deep sense of gratitude to my Supervisor, Prof. J.N. Srivastava and Co Supervisor, Prof. G. P. Satsangi, Department of Botany, Faculty of Sciences, DEI, Agra for their valuable advice, sheer supervision and constant encouragement in pursuance of this work. Their association with this endeavour of mine will remain a beacon light to me throughout my life.

I must express my grateful attitude to Prof. A. K. Bhatnagar, Prof. V. P. Bhatnagar, Prof. D.S. Rao (Head and Dean), Dr. P. K. Dantu, Dr. Sharmita Gupta and Dr. S. K. Soni and other staff and technicians for their assistance and help. Their effort enables the department to run smoothly and makes it a nice place for me to work. My gratitude is due to all faculty members for their help, inspiration and moral support, during the course of my study.
I often wonder, if one gets to see ‘God’ in the mortal life they might be like Prof. V. G. Das, Director, DEI, who shower their blessings in my tough time. From the deepest depth of my heart to express my thanks, I bow my head to the feet’s of respected Sir. The respect turns in to reverence.

The financial assistance from UGC (University Grant Commission) in the form of scholarship as research fellowship for meritorious students in sciences is gratefully acknowledged.

My sincere thanks to Dr. P. K. Singh, Head, Dermatology Department, S. N. Medical College, Agra for providing me the samples from skin scrapings of patients and helped me for their identification.

I am thankful to Microbial Type Culture Collection (MTCC), Chandigarh for the identification of fungal culture and Botanical Survey of India (BSI), Allahabad for the identification of plant.

I am grateful to Dr. Ajay Kumar, Technician, GC-MS Laboratory, AIRF, JNU, New Delhi for GC-MS analysis of the samples.

My special thanks to Prof. Surat Kumar, Chemistry Department, Dayalbagh Educational Institute, DEI, Agra for his assistance in chemical analysis work.

I do not find enough words with which I can express my feeling of thanks to Mr. Zakir, AMU, Aligarh for their invaluable suggestion, constant support and encouragement that went a long way in successfully completion of my work.

The cooperation received through my seniors, colleagues and juniors namely Dr. Lalit Mohan, Dr. Manish Mathur Miss Mala Mishra, Mr. Vinay Kumar, Miss. Abha Singh, Mrs. Sugandha Verma, Miss. Shubhangi Mittal is thankfully acknowledged. I owe a word of thanks to all the research scholars, lab assistants and those that could not find a separate name but helped me directly or indirectly.

My deepest gratitude goes to my family: my parents, Shri P.C. Verma and Smt. Mithlesh Verma, for their unflagging love, unflinching support throughout my life and encouragement to pursue my interests; this work is simply impossible without them.
It is my pleasure to convey thanks to all my sisters and brother- in- law for their support during my Ph.D. program. I am also grateful to my brother, brother- in- law and sister-in-law for their inspiration and moral support.

I am indebted to my father in law, Late. Shri M. L. Verma for his care and love. He had never complained in spite of all the hardships in his life. Although he is no longer with us, he is forever remembered. I am sure he shares our joy and happiness in the heaven.

Last but not the least, my husband Mr. Vishal Verma, and our daughter Baby Pranjal. Your patience, love and encouragement have upheld me, particularly in those many in which I spent more time with my computer than with you. My husband has been, always, my pillar, my joy and my guiding light, and I thank him.

Finally, I would like to thank everybody who was important to the successful realization of thesis, as well as express my apology that I could not mention personally one by one.
