CONTENTS

CHAPTER - I

INTRODUCTION

- Introduction 01
- Irrigation in India 04
- History of the development of irrigation in India 05
- Irrigation facility in Ancient times 11
- Irrigation system in Pre-Independence India 11
- Classification of irrigation works 13
- Irrigation in early Twentieth Century 15
- Irrigation under plan periods 19
- Irrigation in Karnataka 23
- Irrigation development during Pre-Independence period 26
- Irrigation development in Karnataka after Independence 27
- Water wealth of Karnataka 28
- Creation and utilisation of irrigation potential in Karnataka 29
- Chapter scheme 31

CHAPTER - II

THE RESEARCH DESIGN

- Introduction 39
- Definition of the terms used 40
- Statement of the problem 43
- Objectives of the study 43
- Hypothesis 44
- Area of the study 45
- Study universe and sample 46
- Tools and Techniques 48
- Data presentation 49

CHAPTER - III

A REVIEW OF SELECT LITERATURE

- Literature Review 53
- Conclusion 71

CHAPTER - IV

P R O F I L E S

- State Profile 77
- The Geography of Karnataka State 79
- The administrative divisions of Karnataka State 80
- Karnataka's river and water resource 82
- Rainfall 84
- Water partitioning lines of the State 84
- Blocks irrigated by river waters 86
- Krishna river basin 86
- Cauvery river basin 87
- River Cauvery 89
- The legendary background 89
- The Krishnaraja Sagara Dam 94
- District Profile 97
- Background of Mandya district 97
- Hills and Mountains in Mandya district 99
- Historical background of Mandya district 101
- Topography 102
- Drainage system 103
- Geology of the district 104
- Rivers 104
- Soil 107
- Flora and Fauna 108
- Climate 108
- Political background of Mandya district 110
- The social life of Mandya district 112
- Agriculture 115
- Cropping pattern 116
- Intensive Agricultural Development Programme 117
- Transport network 117
- Railways 118
- Roadways 118
- Marketing facilities 119
- Education in Mandya district 120
- Administration in Mandya district 123
- Krishnarajapet 125
- Maddur 126
- Malavalli 126
- Mandya 127
- Pandavapura 127
- Nagamangala 128
- Srirangapatna 130

CHAPTER - V

SOCIAL ASPECTS OF THE STUDY AREA

- Gender of respondents 137
- Age 138
- Caste 141
- Religion 146
CHAPTER VI

ECONOMIC ASPECTS OF THE STUDY AREA

- Land holding 170
- Yield 176
- Impact of crop pattern 180
- Output and area impact of irrigation 181
- Employment 182
- Income 184
- Farm income 187
- Wage income 188
- Other income 189
- Expenditure 190
- Monthly family expenditure on various items 195
- Investment on consumer durable 202
- Savings 210
- Summary 214
CHAPTER - VII
IMPACT OF IRRIGATION

- Introduction 220
- Land use and development 222
- Land value 222
- Cropping pattern 223
- Output disparities 226
- Marketing facilities 228
- Infrastructure development 230
- Labour absorption 233
- Labour statistics 234
- Migration 236
- Immigration 237
- Labour in agriculture 238
- Income disparities 239
- Source of income 241
- Investment on household articles 242
- Statistics regarding irrigation 242
- Social aspects 244
- Tradition 244
- Women issues 245
- Family 250
- The pros and cons of irrigation 252
- The acknowledged disadvantages 253
- Modernisation 253
- Livestock 254
- Rich-poor gap 255
- The acclaimed advantages 255
- Qualitative and Quantitative output 255
- Standard of living 256
CHAPTER - VIII

CONCLUDING REMARKS

- Conclusion 260
- Findings 265
- Suggestions and Recommendations 270
- Implications for future policy planning and research 271
- Policy implications 273
- Future research 274

APPENDIX

I Major Rivers and their tributaries and important streams of Karnataka 276
II Maps 281
III Tree Plant maps of Cauvery River 285
IV Field Photographs 286
V Interview Schedule for the study 290
VI Case study

BIBLIOGRAPHY 308
