ACKNOWLEDGEMENT

The researcher takes this opportunity with all humbleness to express his deep sense of gratitude and indebtedness to his research supervisor Dr. A. K. Wodeyar, Reader and Chairman, Dept. of Studies in Geography, Bangalore University, Bangalore, under whose guidance and assistance this piece of work has been accomplished.

The researcher record his sincere thanks to Dr. A.S. Rayamane, Dr. B. Eswarappa, P.V. Herur, Readers and I.N. Patil, Lecturer, Department of Studies in Geography, Bangalore University, Bangalore for their encouragement and co-operation in compiling the thesis.

He is grateful to Prof. Ziaush Shams Haq, Prof. Lutful Haq and other staff members of the Dept. of Geography and Environment, Dhaka University for their kind help and encouragement. The researcher never forgets the work of Prof. Nazrul Islam in the planning specialisation of Dept. of Geography and Environment, Dhaka University, Dhaka, which was inspiration to take up this work.

Gratitude is due to Dr. Salahuddin Qureshi, Professor, Dept. of Geography, Aligarh Muslim University; Dr. Sumantra Mukhopadaya, Professor, Dept. of Geography, Visva-Bharathi University, West Bengal; Dr. R. B. Singh, Professor of Geography, Delhi School of Economics, University of Delhi, and Dr. Baleshwar Thakur, the Secretary of NAGI and the present Vice-Chancellor of Mithal University, Dharbhanga, Bihar for their comments and suggestions regarding research work while presenting the research papers in different
Seminars/Conferences conducted in India as well whenever the researcher met them.

Researcher always remembers Dr. T.J. Renuka Prasad, Reader in Geology, Bangalore University, Bangalore, and his research scholar H. V. Shashibhushan Kumar for permitting to use the MapInfo in their personal GIS Lab. His sincere thanks to H. K. Govinda Rao, Institute for Social and Economic Change, Bangalore for his efficient and timely typing the thesis.

Thanks are extended to various government departments, autonomous bodies and research organisations of Bangladesh and abroad that furnished data and informations; viz., Bangladesh Space Research and Remote Sensing Organisation (SPARRSO) for providing imageries, Survey of Bangladesh (SOB) for Toposheets, Bangladesh Bureau of Statistics (BBS) for statistical data, the officers of District Statistical Office, Tangail and the residents of Tangail district for their gracious help. Thanks are also due to National Atlas Mapping Organisation (NATMO), Dept. of Science and Technology, Kolkata for Digital Mapping and GIS Training, which has helped the researcher to delineate flood zones and other analyses pertaining to the present thesis.

The financial assistance provided by the Indian Council for Cultural Relations (ICCR), Ministry of Foreign Affairs, New Delhi is acknowledged and researcher is grateful to the ICCR.

Last but not least, researcher is thankful to his parents and Mrs. Wodeyar who has encouraged in carrying this research morally and materially.
