

## ACKNOWLEDGEMENTS

I am grateful **Prof. A. V. Sarma**, Professor of Physics (retired Professor), Department of Physics, Andhra University, Visakhapatnam for his guidance and wise counsel, unfailing attention, sustained interest, constant encouragement throughout the entire period of the program.

I take this opportunity to express my profound sense of gratitude to my Co-Research Director **Prof. T. Arunamani**, Professor of Physics, Department of Physics, Andhra University, Visakhapatnam for her guidance and encouragement throughout the course of this investigation.

I express my sincere thanks to Prof. V. Veeraiah, Principal, College of Science and Technology, Andhra University, Visakhapatnam, Prof. K. Niranjan, Head of the Department of Physics, Andhra University, Visakhapatnam, Prof. D. L. Sastry, Chairman, Board of Studies in Physics, Department of Physics, Andhra University, Visakhapatnam for permitting me for my research work in the Department of Physics, Andhra University, Visakhapatnam.

I also thankful to Dr. B. Nagarjun and other research scholars in the department of Physics.

Words will be inadequate to express my indebtedness and deep sense of gratitude to **Prof. Vasantharao Brahmaji Rao**, Professor, Department of Nano science and Technology, School of Biotechnology, MGNIRSA, a unit of Swaminathan Research Foundation, Hyderabad. It is his indispensable guidance, excellent teaching, everlasting encouragement and affection that make the present dissertation possible. The amount of knowledge that I have received from him through every day's discussions is beyond my quantification. I have learnt a lot from him, not only physics but about almost every aspect of life.

I will always be indebted to Godavari Institute of Engineering and Technology, Rajahmundry, for enabling me to use the infrastructure facilities for taking Dielectric

measurements in Electronics and Communications Engineering Laboratory and in Engineering Physics and Chemistry Laboratory.

I express my sincere thanks to Dr. V. V. Krishna, Principal, Chaitanya Institute of Engineering and Technology, Dr. M. Ramji, Principal, Godavari Institute of Engineering and Technology, Dr. V. Kusuma Kumari, Head of the Department of Humanities and Basic Sciences, Dr. V. Anantha Lakshmi, Head of the Department of English, Prof. N. S. Murthy, Prof. M. Kameswara Rao, Dr. M. V. Subba Rao, Sri G. V. Narasimha Rao, Smt. G. Keerti Marita, Smt. N. Aruna Kumari, A. Phanendralal Varma and all the faculty members for their constant encouragement. I always consider my association with all as a rewarding experience in my career.

I express my deepest sense of gratitude to my brother, Dr. N. V Ramana Murthy, Prof of Mathematics, Andhra Loyola College, Vijayawada for his help in getting the analytical data and Ultrasonic measurements with Antonpaar equipment. In this aspect I express my sincere thanks to Sri K. T. S. S. Raju, Lecturer in Chemistry.

Words are inadequate to express my gratitude to my better half Rama Devi and daughter Ratna Mounika, to the highest extent who took all the pains just to see me pursuing my doctoral studies. This would not have been possible without their constant love and affectionate encouragement. Special thanks are due to my brother-in-law N. Srirama Murthy and my parents-in-law for their support during the course of this study.

I sincerely express my thanks to Miss. N. S. S. M. Lakshmi and Miss. N. Ratna Srilatha for helping me a great deal in calculations presented in this thesis for necessary Matlab Programming.

I am most grateful to my brothers Dr. N. S. Kameswara Rao, Associate Director, GVK Biosciences, Hyderabad and N. Rajanna for their constant encouragement and inspiration provided during the entire period of the study.

**N.S.S.V. RAJA RAO**
