

CONTENT

Chapter No.	Titles	Page No.
CHAPTER: 1	LITERATURE SURVEY	1-44
	References	37
CHAPTER: 2	THEORETICAL MODELS	45-109
	2.0: Introduction	45
	2.1: Thermodynamic study	45
	2.2. Dielectric Study	80
	2.3: Eigen and Tamm's Ion pair Mechanism Study [ETIPM]	86
	2.4: Ultrasonic, densimetry and Refractive Index studies	91
	References	100
CHAPTER: 3	EXPERIMENTAL TECHNIQUES	110-135
	3.0. Introduction	110
	3.1. Dielectric constant determination	111
	3.2. Dielectric constant determination with temperature variation using AN685	123
	3.3. Ultrasonic Velocity, Density and Refractive Index Determination	127
	References	134
CHAPTER: 4	RESULTS AND DISCUSSIONS	136-277
	4.1. Dielectric study	136
	4.2. Thermodynamic study	146

4.3. Ultrasonic Velocity, Densmetric and Refractive Index studies	179
References	272
CHAPTER: 5 CONCLUSIONS AND SCOPE FOR FUTURE WORK	278-282
Appendix – A: Preparation of Solutions	
Appendix – B: Matlab Programs
