ACKNOWLEDGEMENT

It is my pleasant duty to express gratitude to all those who have made it possible for me to complete this thesis.

First and foremost I acknowledge with deep gratitude the help and encouragement I received from my guide, Dr. S. Srinivasan, Professor and Head of the Department of Pediatrics, JIPMER. His experience coupled with up-to-date knowledge in the subject was a great source of inspiration and help for the progress of the work.

I am thankful to Dr. D. S. Dubey, Director, JIPMER and Dr. A. J. Veliath, Medical Superintendent, JIPMER Hospital for their support and encouragement. I am indebted to Dr. R. Sambasiva Rao, Dean, JIPMER for the interest he has shown and for his valuable remarks on the study.

I wish to record my sincere thanks to Dr. K. A. Narayanan, Associate Professor, Preventive & Social Medicine, JIPMER for his dedicated help in statistical analysis of the data with computer assistance. I am grateful Dr. R. Narasimhan, Professor of Pathology, JIPMER for his stimulating discussions and help on cytological aspects of diagnosis. I am indebted to Dr. K. R. Sethuraman, Dr. C. Adithan, Dr. S. Ramaswamy of JIPMER faculty for their useful suggestions on the study. I thank the Departments of Biochemistry, Microbiology, Pathology and Radio-diagnosis for their
assistance in carrying out routine investigations on the children in the study.

I am indeed grateful to my esteemed department colleagues Dr. P. NALINI and Dr. B. VISHNU BHAT Professors and Dr. SHANTI ANANTHAKRISHNAN, Chief Medical Officer for their co-operation and encouragement throughout my study.

I extend my gratitude to Shri VIJAYAN PILLAI of Medical Illustration Division and other staff members Mr. MENON, K, Mr. PONNAMBALAM, Mr. SHASHINDRAN and Artists Shri PADMANABHAN and Shri ARULSAMY.

The timely and extensive bibliographic services by Mrs. KALYANI SATHYAKUMAR, Assistant Librarian, JIPMER is gratefully acknowledged. I extend my sincere thanks to other staff members of JIPMER Library and to Shri NIRMALANANDAN of online search.

My sincere thanks to Shri VANAMAIYL, Scientific Officer (Statistics) at Vector Control Research Centre (ICMR), Pondicherry for his valuable suggestions on study design and statistical analysis.

I greatly appreciate the co-operation extended to me by Dr. P. R. NARAYANAN, Deputy Director Immunology and Dr. P. ALAMELU RAJA, Scientific Officer at Tuberculosis Research Centre (ICMR), Madras during my training on Immunodiagnostic methods in their laboratory.
It is with a deep sense of gratitude and indebtedness I acknowledge the valuable help of Dr. C. Jagannath (formerly Assistant Director, NICD Unit, NTI Campus, Bangalore). He was a constant source of inspiration and guidance, providing me the necessary technical, material facilities to carry out a part of the study in his laboratory. I am also grateful for the help extended at National Tuberculosis Institute (NTI), Bangalore for CSF mycobacterial cultures.

I owe my gratitude to Dr. H. Vivian Wyatt of University of Leeds, U.K. for his valuable remarks on the study. I thank Dr. G. V. Kadival and Dr. A. M. Samuel, Scientists at Radiation Medicine Centre, BARC, Bombay for sharing with me their experience on a multicentric trial conducted for immunodiagnosis of TBM.

The skilful secretarial assistance of Shri S. Perumal in the meticulous preparation of the thesis is gratefully acknowledged.

I would be failing in my duty if I do not acknowledge the help extended by the children enrolled in this study and their parents.

Dr. S. Mahadevan
