ACKNOWLEDGEMENT

It is my pleasure and sincere duty to acknowledge my indebtedness to all who assisted, guided and contributed their time and support to make this thesis possible.

Firstly, I would like to express my deep sense of gratitude to my Guide Dr. Subhas S. Bhoosnurmath, Honorary Professor and PI – DST Project, P. G. Department of studies in Mathematics, Karnatak University, Dharwad. With his endless enthusiasm, inspiration and great efforts to explain things clearly and simply, he made research interesting for me. Throughout my research work, he highly patronized and was cooperative in ups and downs of my life. I am highly impressed by his teaching, knowledge, accountability towards his work, honesty, patience and emphasized values in life. I am fortunate to have such a humble, kind hearted and eminent person as my Guide without whose invaluable guidance, it would have been impossible to complete this work.

I am delighted to express my earnest thanks to my school teacher C. S. Shridhar, who had highly promoted to build my career. With his inspiration and motivation, today I am able to stand to this level. For this I am indebted to him forever. I am extremely thankful to God that I got such an humble, helpful, admirable and great preacher. Once again I express my deep sense of gratitude to him and seek their blessings.
