ACKNOWLEDGEMENTS

During the long span of preparing this research work, I have taken help at various stages from various sections. Without that, I would not have been able to complete this work. So it is my pleasant duty to record my sincere thanks to all of them.

I am, indeed very much grateful to my research guide Dr. T. T. Basavanagouda, Associate Professor, Department of Anthropology, Karnataka University, Dharwad for the patience and kindness with which he supervised this research. To be candid, I owe my training in genetical research to him only. His incisive comments and insights have taught me how to critically evaluate the sources an essential pre-requisite for any genetical reconstruction. In fact, it was him who pursued me to take up this topic for research. I owe gratitude not only for his guidance, but for the constant encouragement he gave me.

My special thanks are due to Dr. H. B. Walikar, Vice-Chancellor, Karnataka University, Dharwad and Dr. S.B.Hinchigeri, Registrar, Karnataka University, Dharwad for their constant support during my research work.
