I am also thankful to the Union Ministry of Health & Family Welfare for nominating me as a member of the Expert Group on Oil and Fats formed to aid & advise the Food Safety and Standards Authority of India established under the new Food Safety and Standards Act, 2006. This has enabled me to have first hand insight of the new developments relating to food regulations of the country which served as a useful input for my present research work.

I am obliged to Late Dr. Naresh Bedi, Chairman, Quality Services and Solutions Pvt Ltd, Mumbai and Member of SEA, India for his immense encouragement and contribution in providing me the supporting literature of the research work. He has not only imbibed value to the study but also imparted research skills.

I am extremely indebted to all my family members. Their love, affection and precious support have been the source of my strength and inspiration to complete this work. I have hardly any words to express my gratitude for both of my daughters for their valuable efforts and thoughts to make it a complete and effective work. Their deep concern and understanding has boosted my zeal and strength to go ahead in completion of my work.

Finally, I am dedicating this entire work to my Parents and Almighty for the blessings and grace which they have always bestowed upon me.

Achhru Ram Sharma
