Summary of the Corrections made in the Thesis as Suggested by the Referee

Dr. P.A. Rego
Department of Economics
Mangalagangotri
Mangalore University, Mangalore

1. The theoretical background has been strengthened with the addition of new points.
2. Research problem and the parameters examined are found in the First Chapter (Need of the Study).
3. By taking few more books, journals and the reports the area of review of literature has been broadened.
4. The issue of research methodology has been modified.
5. Various tables given in the thesis are based on the primary data collected from 300 respondents in the study area. As such most part of the thesis is based on primary data.
6. The specific contribution of the research work has been explained in the last chapter.
