CHAPTER III: Physicochemical analysis of seed oils 91 – 102

III.1 Experimental Section 91 – 93

III.1.1 Materials 91

III.1.2 Methods 91

III.1.2.1 Determination of density of seed oil 91

III.1.2.2 Determination of refractive index of seed oil 91

III.1.2.3 Determination of percentage of moisture in seed oil 91

III.1.2.4 Determination of acid value of seed oil 92

III.1.2.5 Determination of iodine value of seed oil 92

III.1.2.6 Determination of saponification value of seed oil 93

III.2 Results and Discussion 94

III.3 Conclusion 101

References 102

CHAPTER IV: Fatty acid composition of seed oils 103 – 143

IV.1 Experimental Section 103 – 104

IV.1.1 Materials 103

IV.1.2 Methods 103

IV.1.2.1 Preparation of catalyst 103

IV.1.2.2 Transesterification of seed oil 104

IV.1.2.3 Analysis of fatty acid methyl ester (FAME) mixtures 104

IV.2 Results and Discussion 104 – 167

IV.2.1 Transesterification of seed oil to fatty acid methyl ester (FAME) 104
IV.2.2 Analysis of FAME mixtures

IV.2.2.1 Fatty acid composition of *Michelia champaca* seed oil 106

IV.2.2.2 Fatty acid composition of *Cinnamomum tamala* seed oil 111

IV.2.2.3 Fatty acid composition of *Nyctanthes arbor-tris* L. seed oil 116

IV.2.2.4 Fatty acid composition of *Baccaurea remiflora* seed oil 121

IV.2.2.5 Fatty acid composition of *Mimusops elengi* seed oil 126

IV.2.2.6 Fatty acid composition of *Abelmoschus esculentus* seed oil 131

IV.2.2.7 Fatty acid composition of *Luffa acutangula* seed oil 135

IV.2.2.8 Fatty acid composition of *Cucurbita pepo* L. seed oil 140

IV.2.2.9 Fatty acid composition of *Raphanus sativus* L. seed oil 145

IV.2.2.10 Fatty acid composition of *Cucurbita moschata* seed oil 151

IV.2.2.11 Fatty acid composition of *Cucumis sativus* L. seed oil 156

IV.2.2.12 Fatty acid composition of *Luffa cylindrica* seed oil 161

IV.2.2.13 Fatty acid composition of *Momordica Charantia* L. seed oil 162

IV.2.2.14 Fatty acid composition of *Terminalia arjuna* seed oil 163

IV.2.2.15 Fatty acid composition of *Hibiscus sabdariffa* seed oil 164

IV.2.2.16 Comparison of fatty acid profiles of different seed oils 166

IV.3 Conclusion 168

IV.4 Spectral data of FAME mixtures 169

**CHAPTER V: Identification of glycerides in seed oils** 174 – 214

V.1 Experimental Section 174
V.2 Results and Discussion 175 – 212

V.2.1 Composition of triacylglycerols in *Michelia champaca* seed oil 175
V.2.2 Composition of triacylglycerols in *Cinnamomum tamala* seed oil 179
V.2.3 Composition of triacylglycerols in *Nyctanthus arbor-tristis* L. seed oil 183
V.2.4 Composition of triacylglycerols in *Baccaurea remiflora* seed oil 186
V.2.5 Composition of triacylglycerols in *Mimusops elengi* seed oil 190
V.2.6 Composition of triacylglycerols in *Abelmoschus esculentus* seed oil 193
V.2.7 Composition of triacylglycerols in *Luffa acutangula* seed oil 196
V.2.8 Composition of triacylglycerols in *Cucurbita pepo* L. seed oil 199
V.2.9 Composition of triacylglycerols in *Raphanus sativus* L. seed oil 202
V.2.10 Composition of triacylglycerols in *Cucurbita moschata* seed oil 204
V.2.11 Composition of triacylglycerols in *Cucumis sativus* L. seed oil 204
V.2.12 Composition of triacylglycerols in *Luffa cylindrica* seed oil 206
V.2.13 Composition of triacylglycerols in *Momordica Charantia* L. seed oil 207
V.2.14 Composition of triacylglycerols in *Terminalia arjuna* seed oil 208
V.2.15 Composition of triacylglycerols in *Hibiscus sabdariffa* seed oil 211

V.3 Conclusion 213
