ACKNOWLEDGEMENTS

I take the privilege to express my sincere and deep sense of gratitude to my guide Prof. R.K. Jethi, Department of Biochemistry, Panjab University, Chandigarh for his timely guidance, invaluable suggestions and cooperation during the course of the study. I am extremely grateful to my teacher and co-guide Dr. (Mrs.) S.K. Thind, Emeritus Medical Scientist, Department of Biochemistry, PGIMER, Chandigarh. Her zealous interest, untiring endeavours, keen attention and constant support were always a great asset to me during the investigation and organization of this work.

I am beholden to Dr. R. Nath, Professor and Head, Department of Biochemistry, PGIMER, Chandigarh for his meticulous guidance, healthy criticism, suggestions and discussions on the research problem which formed an invaluable part of the investigation.

I owe my profound thanks to all the faculty members of the Department of Biochemistry, PGIMER, Chandigarh for the cooperation extended to me to carry out the study.

I am grateful to Dr. R. Prasad, Assistant Professor, Department of Biochemistry, PGIMER, Chandigarh for his constant encouragement and help.
I feel it a pleasure to record my appreciation for Dr. Raman Pal, Baljinder, Mohinder Singh, V.B.T. Malik, Gurjit, Rajat, Deepinder and Lalit for the encouraging help and moral support during the preparation of the thesis. I am thankful to Brij Pal, Laboratory Attendent for animal handling.

I am also thankful to Shagul Graphics for the excellent typework, which made this effort a success.

I owe an encompassing debt to my family members especially Kiran, Monika, Ajay, Parshant and Priyanka for their most needed affection, encouragement without which it could not have been possible for me to complete my present assignment.

The financial assistance in the form of JRF and SRF provided to me by Indian Council of Medical Research, New Delhi is gratefully acknowledged.

VINOD RATTAN
