ACKNOWLEDGEMENTS

I wish to place on record my deep sense of gratitude and heartfelt thanks to my guide Dr. Abraham Verghese, presently Director, National Bureau of Agriculturally Important Insects, for his invaluable guidance and generous advice at every stage of my endeavour. But for his constant encouragement and valuable suggestions this work would not have been a reality. Mere words can never express my feeling of requital towards professionalism and altruism. I munificently thank him for all the support given to me.

I owe my gratitude to Co-Guide Dr. S. V. Krishnamurthy, Professor, Department of Environmental Science, Kuvempu University, Shankaraghatta, Shimoga, Karnataka, for his constant support and invaluable suggestions on the lines of approach to the subject and the culmination of my thesis.

I take this opportunity to express my deep sense of gratitude to Dr. C. A. Viraktamath, Professor Emertius, University of Agricultural Sciences, Bangalore, for mentoring me in the taxonomical Skills and going through patiently the taxonomical part including the line diagram of the thesis.

I thank Dr. S. Shivashankar, Principal Scientist, Division of Biochemistry for helping me to carry out biochemical work and rendering his valuable comments on the biochemistry part of the thesis.

I also take this opportunity to thank Dr. N. K. Krishna Kumar, Deputy Director General Horticulture, ICAR, for his constant support. I also take this opportunity to thank Dr. Amrik Singh Siddhu, Former Director, Indian Institute of Horticultural Research and Chairman, PG studies for having permitted me to register for Ph.D in Kuvempu University and to work on the subject. I also thank the Head, Chairman of PG studies and Chairman of Board of Studies and all the
teaching and non-teaching staff members of Environmental Science, Kuvempu University for their unstinted support.

It is my duty to express my gratitude to Dr. A. K. Chakaravathy, the present head, Division of Entomology and Nematology for the support in the completion of my work. I also thank all the scientists in the Division of Entomology and Nematology for the support rendered by them. My sincere thanks also goes to Dr. P. D. Kamala Jayanthi, National Fellow and Dr. P. V. Rami Reddy, Principal Scientist, Division of Entomology and Nematology for their constant support.

I thank K. S. Shivashankar, Principal Scientist, Division of Biochemistry, Dr. R. Asokan, Principal Scientist and National Coordinator of ORP-SP, Division of Biotechnology and Dr. G. Selvakumar, Senior Scientist, Division of Soil Science, Indian Institute of Horticultural Research, Bangalore. Dr. Prathiba, Principal Scientist, AKMU and Dr. Sunil Joshi, Principal Scientist, Insect Systematics Unit, National Bureau of Agriculturally Important Insect, Bangalore, Karnataka, for all their support.

I owe my gratitude to Dr. K. Sreedevi, Senior Scientist, Indian Institute of Agricultural Research, Dr. S. Anandhi, Assistant Professor, Kansas State University and Group Captain Madan Gopal for patiently going through the draft and rendering their valuable suggestions. I also thank Dr. Arumugam, Scientist C, CSIR, Dr. Nandha Devi, Assistant Professor, Department of Bioinformatics, Dr. Aruna Sharmili, Assistant Professor, Department of Biotechnology and Ms. Mary Kutty Mathew, Senior manager, copy editing for their timely help.

I am thankful to Mr. Hanumantharayappa and Mr. Rajanna Technical Officers, Division of Entomology and Nematology for maintaining the mango orchard and witnessing the field observations carried out. I would also like to thank Mr. Qazi, Technical officer, Division of Biochemistry for his timely help.
I shall remain indebted to my colleagues Latha, K. R. and Sudhakar, SRF’s, Division of Entomology and Nematology for their constant support in carrying out laboratory experiments. I express my sincere thanks to my peer SRFs Soumya, C. B., Soumya, B. R., Kavitha, S. J., Varun Rajan, Lokeshwari, D., Nagalakshmi G., Vineesh, Jayshankar, Darshana, C. N., Soumya, K, Viyolla, Rakshitha, Mrs. Rashmi, Mr. Subash Department of Entomology, Geetha, G. A., Pavithra, K. C., Kavitha, P. and Sumathi, S. Department of Biochemistry, Illango, Chaitaniya and Suneesha, Division of Biotechnology, Mohan, Hemachandra, Department of Pathology, IIHR and Cruz Anthony, AKMU NBAII, Bangalore for their unflinching support. I fail to find words to express my thanks to Mr. Srinivas who helped me in assisting the field experiments. I also thank Mrs. Trupti, Mrs. Mohini, Ms. Darshini, Mrs. Syamambika and Ms. Meera for their timely help.

Financial assistance rendered by ICAR network project on the Out Reach Programme on the management of sucking pests in horticultural ecosystem is gratefully acknowledged.

Finally this work wouldn’t have completed without the continuous moral support and good wishes from my parents, in-laws, sisters, brothers, sisters-in-law and brothers-in-law. It will not be out of place to thank my husband Dr. V. C. Suresh Chander and my daughter Varuniya for their co-operation, constant adjustments and timely help. As an epilogue I dedicate this work to my mother, whose untiring inspiration goaded me take on this onerous project. ‘Thank you Amma’

Last, but not the least all I thank Almighty for giving me the strength, health and the perseverance required in completing this task.

Place: Bangalore

Date: 17 December 2014
