ACKNOWLEDGEMENTS

It gives me immense honour and pleasure to express my sincere gratitude to my esteemed teacher and guide, Dr. Rajeshwar Sharma, Chairman, Reader, Department of Biochemistry, Panjab University, Chandigarh, under whose expert guidance, perpetual encouragement, constructive criticism and creative suggestions, this humble attempt has been made. His guidance was enlightening, creative and educative from the time of inception, to the completion of this piece of work. I consider myself very fortunate to be associated with my revered guide.

I am deeply indebted to Prof. H.M. Dani, Department of Biochemistry, Panjab University, Chandigarh for his keen interest and help extended to me from time to time.

I gratefully acknowledge the help received from Dr. D.K. Dhawan, lecturer, Department of Biophysics, Panjab University, Chandigarh for interpreting the histopathological data.

My sincere thanks to all my colleagues and labmates for their cooperation and timely assistance. The facilities provided by the Chairperson(s) and the staff, Department of Biochemistry, Panjab University, Chandigarh and the financial support accorded by the University are also acknowledged. I appreciate the meticulous and patient efforts of Mr. R.C. Sharma for typing the manuscript accurately.

I would like to mention the affection and good wishes of my in-laws which helped me morally.

To my family, I owe more than I can express. It was the inspiration, guidance, patient help and love showered on me by my Parents, Rita didi, Babbal Ji, Manju and Kuhu, that sustained me during the course of my study and helped me to bring this monumental task to completion. Words are not enough to thank my younger sister, Sweety for her ever-ready help.

Last, but not the least, I thank Pauly, my husband, for his moral encouragement and thoughtfulness and for having patiently borne the brunt of my neglect towards the end of my tenure.

Purnima
