

### ACKNOWLEDGEMENT

I wish to take this opportunity of thanking Dr. M.L.Dhar, Director, Central Drug Research Institute, Lucknow, for permission to carry out the work embodied in this thesis and for laboratory facilities.

It is with deep sense of gratitude that I thank Dr. Nitya Anand, Scientist-in-Charge, Division of Medicinal Chemistry, Central Drug Research Institute, Lucknow, for his suggesting the problem, keen interest and encouragement during the course of these studies. Apart from having given a good initiation in research, he has taught perseverance, patience, inquisitiveness or rather a way of life necessary for a purposeful research career.

It is with great pleasure that I thank Dr. P.K. Grover, for his useful suggestions and help during the course of this work.

My thanks are also due to Dr. J.M.Khanna, Mr. S.Ray and Mr. J.S.Bindra for their help in the preparation of the manuscript.

I wish to thank the Pharmacology and Endocrinology Divisions of this Institute for biological screening results of the compounds. Microanalysis and Spectroscopy were respectively done by Mr. J. Saran and his colleagues and Mr. B.B.P. Srivastava, to whom I am grateful.
