Acknowledgements

It is my privileged honour to express my deep sense of gratitude and indebtedness to Dr. (Mrs.) Usha Kanwar, Professor, Department of Zoology, Panjab University, Chandigarh, under whose exceptionally versatile guidance, meticulous efforts, constructive criticism and persistent encouragement, the present work came to its successful end.

I also extend my thanks to Dr. H.S. Vasisht and Dr. K.K. Tandon, Chairmen, Department of Zoology, Panjab University, Chandigarh, for being very cooperative and kindly providing me with necessary laboratory facilities.

I acknowledge my indebtedness to Dr. K.C. Kanwar (Professor) and Dr. N.R. Kalla (Reader) of Department of Biophysics for their invaluable suggestions and willing cooperation during the course of my work.

I am thankful to Dr. S.N. Sanyal for the help rendered by him.

The constant help, guidance and encouragement provided to me by my colleagues, Dr. (Miss) Anita Ranga, Mrs. Sushil Gupta (U.G.C. Teacher Fellow) and Miss Surinder Kaur has been a major factor in the completion of my thesis work.
Thanks are due to Mr. Ravi Dalmotra, Artist and Mr. P.C. Sharma, Photographer, Department of Zoology for their timely co-operation in completing the work.

No words can express my gratitude towards the members of my family, specially my mother whose loving inspiration, constant encouragement and patience has helped me in the achievement of this goal.

I must also gratefully acknowledge my thanks to my in-laws and specially to my husband, for their affection, encouragement and co-operation which helped me successfully end the project I had started.

My thanks are also due to all members of the staff, friends and lab-mates for providing me congenial surroundings and timely help.

Thanks are due to Schering AG, Berlin, for providing a gift sample of Norethisterone enanthate.

The fellowships awarded by Panjab University, Chandigarh and C.S.I.R. are gratefully acknowledged.

Appreciation must be given to those poor animals who were sacrificed in order to make this work a success.

Deepika Hazuria
