I express my deepest sense of gratitude and heart-felt thanks to my supervisor Professor J.K. Gupta, Department of Microbiology, Panjab University, for the invaluable guidance and constant encouragement, which I received from him throughout the course of this investigation. His everlasting inspirations, ceaseless help and keen interest have been pivotal in accomplishing this assignment.

I must record my sincere thanks to Dr. (Mrs) S. Sharma, Chairperson and staff, Department of Microbiology, Panjab University for extending necessary facilities.

It is my utmost duty and please to extend special thanks to Dr. M.B. Jauhari, Asstt. General Manager (R&D), BILT, Yamuna Nagar, for extending unstinted support, constant help and encouragement without any reservation throughout the course of the present studies. The help rendered by all the staff members of R&D Department, BILT, Yamuna Nagar is gratefully acknowledged.

My thanks are also due to Dr. P.K. Bajpai, Head, Chemical Engg. Div. and Dr. R.M. Kothari, Head, Biotechnology Div., Thapar Corporate Research and Development Center, Patiala for many useful discussions and suggestions and Dr. U.C. Banerjee, Scientist C, IMTECH, Chandigarh for having spared his precious time to help me with enzymic work.

I also wish to express my appreciation of the cooperation given to me in the department by all my colleagues and friends.

Words cannot express my heartfelt gratitude that I owe to my loving parents, husband, brothers and all the family members for their unceasing preservance, moral support and care that has made it possible for me to attain this stage of academic achievement in my life.

The financial assistance rendered by University Grants Commission and Thapar Corporate Research and Development Center is also gratefully acknowledged.
