ACKNOWLEDGEMENT

It is my privilege to thank Dr. M.K.P. Amma, Ph.D. (BHU), Reader in Biochemistry, and Professor K.N. Sareen, Ph.D. (Zurich), Head of the Biochemistry Department, Panjab University, Chandigarh (now retired) for their keen interest and guidance in the present study. Words could hardly register the deep sense of gratitude I have for Dr. Amma, for her mature wisdom, constructive criticism and constant supervision without which this work would not have been accomplished.

I also take this opportunity to thank Dr. H.M. Dani, Ph.D. (Pb., London), acting Chairman, Department of Biochemistry, Panjab University, Chandigarh and Dr. D.D. Bansal, for their sincere advice and constant encouragement during the period of this study.

I would not fail to acknowledge my thanks to Shri Yograj, attendant in the animal house for handling and taking care of the animals.

My sincere thanks are due to Mr. M.M. Gupta and to my friends for their co-operation during this period of investigation.

The financial assistance in the form of Senior Research Fellowships awarded to me by ICAR and CSIR, New Delhi, is thankfully acknowledged.

Chandigarh, Saroj
