ACKNOWLEDGEMENTS

I remember with gratitude and deep appreciation ...

My guide Dr. K. R. Venugopala Reddy, Associate Professor, for his guidance, stimulating discussions, valuable suggestions and inspiring comments throughout my research work. His sincerity and commitment to work and tremendous support has been a steady source of inspiration for me. I cherish the period of learning under him. He is a real supervisor and a great teacher.

Dr. J. Keshavayya, Professor, Department of Studies in Chemistry, Kuvempu University for his support and valuable suggestions with individual involvement.

Dr. Fasiulla, Assistant professor, Department of Chemistry, MIT, Manipal, for his concern, help and encouragement while doing thermal and magnetic studies. Dr. Manjanna, co-ordinator, Department of Nano Science and Technology, Kuvempu University, for his care and involvement while doing electronic spectral studies. A.M. Sridhara, Alkem Laboratories, Bangalore, for his help in IR and mass spectral studies and support throughout my research work. Dr. B.E. Kumaraswamy, assistant professor, Department of Industrial Chemistry, Kuvempu University, for his help in electrochemical studies. Dr. Shobha K.S., Department of Microbiology, Sahyadri Science College for her critical help in performing the antimicrobial testing of the synthesized compounds. STIC, Cochi, for the service rendered in providing NMR spectra.

Prof. B. R. Siddaramappa, Principal, Sahyadri Science College (Autonomous) and Head of Chemistry department Prof H. Jayadevappa and all the teaching staff of the chemistry department, for their support.

All the faculty members of the P.G. Department of Industrial Chemistry and Chemistry, Kuvempu University, for their help and support during research.

My research group Vittala Rao K.S., Chidananda B, Pradeep K.M, Naveen Aradhya, Mallikarjuna H.E. Mohan Reddy, Dr Moinuddin Khan, Chandrashekhar Kumar B. and Ramesh B. for their help and support.

My teacher Prof. P. Vasudeva Nayak, whose inspiration and encouragement made me to attain this level.
My parents, brother and sisters, whose instilling aspirations lead me to take this research work, their support and encouragement in every moment of my life. My husband Chidambara Rao K. and daughter Prerana C Rao, for being there always as a source of energy, their wholehearted support and cheerful encouragement.

UGC, India for awarding FDP teacher fellowship.

Above all, I kneel down before God Almighty, for the blessings showering over me.

Anitha
