ACKNOWLEDGEMENT

It is a matter of great honor for me to have the opportunity to convey my gratitude to a great number of people whose contribution in assorted ways helped me throughout my research endeavor towards completion of the present doctoral research work.

First and foremost, I thank the Almighty for providing me the sangfroid approach to cope up with the situations and strength to complete the doctoral thesis work successfully.

I record my sincere thanks to Prof. R. Sethuraman, Vice Chancellor, Shanmugha Arts, Science, Technology and Research Academy (SASTRA) University, for providing me an opportunity to carry out the present research work, which has enabled me to enrich knowledge on research and academics.

I express my deepest regards to my guide Dr. G.P. Dubey, Emeritus Professor, CCRAS, for his guidance amidst his busy schedule. I extend my gratitude to co-guide Prof. B. Parimala Devi, HOD, Pharmacy, SASTRA University for her valuable suggestions.

I am extremely grateful to Prof. S. N. Srivastava, Registrar, Prof. S.Vaidyasubramaniam, Dean (Planning and management) Dr. S. Swaminathan, Dean (Sponsored Research) Prof. Thiayagarajan (Dean Research), Prof. Chandramouli (Associate Dean Research) for their valuable support in the accomplishment of this research.

With ineffable gratitude, I express my thanks to Prof. P. Brindha, (In-charge, CARISM), Prof. S. Panchapakesan (In-charge, CAF) and Prof. G. Victor Rajamanickam, former-Dean, CARISM SASTRA University, for their precious suggestions, constant encouragement during research tenure.

I am grateful for the valuable input and guidance from my doctoral committee members Dr. S. Rajrajan, HOD, Department of Microbiology, Presidency College, Chennai, Dr. Rajsekharan of SCBT and Dr. Lokesh Upadhyay (CARISM) of SASTRA University for their continued support and critical evaluation throughout my research work.

I would also like to express my deepest gratitude to Dr. K.K. Tripathi (Air Commodore, Indian Air Force, Bangalore) for his undue support during the most needed time, Dr. Aabha Aggarwal (Scientist E, NIMS, ICMR, New Delhi) for statistical analysis, Dr. S. K. Shankar (HOD, Neuropathology, NIMHANS, Bangalore) and Dr. Anita Mahadevan (Assistant Professor, NIMHANS) for permitting the Immunohistochemistry analysis in the Neuropathology department and Dr. Chandrasekhar Sagar (TEM In-charge,
NIMHANS) for his precious suggestions. Dr. Jasbir Kaur (Associate Professor, Biochemistry, AIIMS, New Delhi) for her technical guidance and support throughout the research course.

I have no words to express my gratitude to Prof. S. Przedborski (HOD, Neurology and Pathology, Columbia University, NY, US) and Prof. Jim Adams (Pharmacology, University of Southern California) for their generous support for providing the technical details for MPTP model development. I am also thankful to Prof. John Maguire (Treasurer, Oxygen Club of California, CA), Prof. Helmut Sies (Heinrich Heine University Dusseldorf, Germany) and Prof. Kishore Gohil (UC Davis, CA) for their generous help and suggestions, which enabled me to solve my research queries.

I would like to extend my sincere thanks to Prof. T.R. Shivaramakrishnan (EEC), Prof. H. N. Upadhyay (EEC), Dr. S. K. Chaturvedi (CIVIL), Dr. Sathya (CIVIL) Dr. P. C. Prabhu (CAF), and Dr. N. Mahesh, Assistant Professor, Srinivasa Ramanujam Centre, SASTRA University, Kumbakonam for always being willing to help and advice.

I would like to thank Dr. Aruna Agrawal (Associate Professor, IMS, BHU, Varanasi, U.P) and Col. Dr. D. P. Attrey (Director-Pharmacy, Amity University, Noida U.P) for their valuable suggestions throughout the research endeavor.

I wish to express my sincere appreciation to Dr. Shreesh Ojha (PDF-Pharmacology, AIIMS) and Mr. Bhanu P Tiwari (SRF – Biochemistry, NIMHANS) for HPLC analysis, Dr. B. S. Reddy (PDF – Karowlinska Institute, Sweden) for their troubleshooting and standardization of immunoblotting, Mrs. Parul Saxena (SRF – Pathology, AIIMS) and Ms. Deepa (JRF, Neuropathology, NIMHANS) for immunohistochemistry analysis.

I would like to express my thanks to the Drugs and Pharmaceutical Division of Department of Science and Technology (DST) for providing me fellowship for a period of three years during my research work. I am also highly thankful to DST and AYUSH for providing me full travel support for presentation of doctoral research findings in International conferences, held at USA.

I gratefully acknowledge my sincere thanks to Dr. S. K. Sharma (Advisor-AYUSH, New Delhi) and Dr. G. J. Samathanam (Head TDT, DST, New Delhi) for their constant encouragement throughout the year to accomplish the present research work.

Many thanks to Natural Remedies Pvt. Ltd., Bangalore for supplying standardized extracts and HPLC analysis.

I probably would not have made it so far, if it had not been for my loving friends; I owe them all a debt of gratitude. Each stage of the present research work provided numerous challenges, and it was nice to share all the grievances frankly with them. I extend my thanks to my beloved friends
Ms. Manisha Rastogi, Mrs. S. Suguna, Mr. Onkareshwar Rai, Mr. Brijesh Pandey, Mr. Sajnay Tiwari, Mr. Shrish Dixit, Mr. Raj Srivastava, Mr. Saurabh Srivastava, Mrs. M. Abeetha, Mrs. S. Revathi, Mrs. S. Subhashini, Dr. Rajalakshmi, Mrs. Nithya devi, Mrs. Vajrai and colleagues Dr. S. Sahayam, Mr. Karunanidhi, Mr. C. David Raj, Dr. Devanathan, Mr. Muthukrishnan, Mrs. K. Gayathri, Mr. K. S. Jayachandran, Mrs. K. L. Niraimathy, and Mrs. R. Sivagamasundari for their continuous support which made the research a feasible venture.

I sincerely thank all the staff members of CARISM, SCBT and CAF of SASTRA University for their kind co-operation to complete the present research venture.

I pay my earnest gratitude to sacrificed rodents to make worth full findings for the betterment of humankind and society.

Above all, I would like to express my sincere gratitude to my parents and family members for their blessings, encouragement and support throughout the years for the successful completion of the present doctoral thesis.
