ACKNOWLEDGEMENT

No serious effort in life is totally accomplished by oneself. This research work is no exception. The driving force behind the whole process, which brought this research work to a shape of a thesis, is my esteemed supervisor, Prof. Dilip Kumar Kakati, Department of Chemistry, Gauhati University, Assam. I thank Kakati Sir for his great patience, scholarly supervision with constructive criticism and myriad of useful suggestions apart from invaluable guidance to me.

I would like to take express my sincere gratitude to Prof. D. C. Deka, HOD and all the Faculty members and office staff of Chemistry Department for their encouragement and friendly helping attitude in all respect during my research tenure.

I am equally grateful to Dr Nripen Goswami, the Principal, J. C. Nath, President of the Governing Body, and UGC–NERO for their kind help in availing UGC–Teachers Fellowship. I am especially thankful to Apurba Da and JP Da for their whole hearted support and cooperation during my absence at J N College. I am very grateful to Dr. A. K. Sinha of DAC Kolkata, Dept of Material Science, NEIST, and Prof. K. Ismail for their kind helps for allowing me to use DLS in their institute. I am also grateful to IIT Guwahati and SAIF at NEHU for TEM, HRTEM and SEM investigations.

I am indebted to research scholars of the Department and my laboratory mates specially Madhab Da, Bhupen Da, Sarkar Da, Nirmala, Ruhul, Riblu, Bikash, Rongmili and Mantu for their help at various stages and careful advice. Thanks to my friends and well wishers Razab, Dr. A. Ahmed & Mrs. Ahmed of AEC, Noushad, Kalam Mama, Manoj Da, Tapan Da, Habib Da, Alok Da, Ratnamala and Pinaki for their valuable support in many respects during my research work.

Preparation of this research work would have been impossible without encouragement and moral support from my mother, beloved wife Sabina Yasmine and the patience of my loving daughter Niharika and son Sahiluddin (Bicky).

With regards

(Nuruddin Ahmed)
