

LIST OF

TABLES & FIGURES

LIST OF TABLES

No. Title

1. CYP2D6 alleles
2. Inhibitors of *CYP2D6*:
3. Prevalence of *CYP2D6* poor metabolisers in different ethnic groups
(phenotyping)
4. Frequencies of *CYP2D6* poor metabolisers and ultra extensive metabolisers
in different ethnic groups (genotyping).
5. Substrates of *CYP2D6*
6. Characteristics of the volunteers from the four South Indian states.
7. (a) Comparison of the mean metabolic ratio(SD) in the four South Indian
states.
(b) Comparison of the *CYP2D6* phenotypes in the four South Indian states.
8. Urinary output (0-8 hours) and dose recovery of DM and DT in EM and
PM South Indian subjects.
9. Allele frequency according to Hardy Weinberg Law in the four South
Indian states
10. Frequency of *CYP2D6* PM reported in South Asia

LIST OF FIGURES

- | No | Title |
|-----------|---|
| 1. | Factors which can limit the therapeutic effectiveness of drugs. |
| 2. | Arrangement of <i>CYP2D6</i> gene in chromosome 22. |
| 3. | Some major molecular mechanisms that can result in altered human drug metabolism. |
| 4. | Frequency of ultra extensive metabolisers in different part of the world. |
| 5. | Phylogenic tree of the human <i>CYP1-CYP4</i> gene families in relation to evolutionary distance. |
| 6. | Metabolism of dextromethorphan. |
| 7. | Relative abundance of P450 isoenzymes in human liver. |
| 8. | Relative contribution of P450 isoenzymes to drug metabolism. |
| 9. | Initiating event in the most known environmental carcinogens. |
| 10. | The map of India with the location of sample collection for the present study. |
| 11. | Frequency distribution histogram of 454 South Indian subjects. |
| 12. | Probit plot of 454 South Indian subjects. |
| 13. | NTV Plot of 454 South Indian subjects. |
| 14. | Frequency distribution histogram of 104 Kerala subjects. |
| 15. | Probit plot of 104 Kerala subjects. |
| 16. | NTV Plot of 104 Kerala subjects. |

17. Frequency distribution histogram of 100 Karnataka subjects.
18. Probit plot of 100 Karnataka subjects.
19. NTV Plot of 100 Karnataka subjects.
20. Frequency distribution histogram of 111 Andhra Pradesh subjects.
21. Probit plot of 111 Andhra Pradesh subjects.
22. NTV Plot of 111 Andhra Pradesh subjects.
23. Frequency distribution histogram of 139 Tamil Nadu subjects.
24. Probit plot of 139 Tamil Nadu subjects.
25. NTV Plot of 139 Tamil Nadu subjects.
