Acknowledgements
ACKNOWLEDGEMENTS

It is my privilege to place on record my deepest gratitude to my supervisor Professor N.K. Gupta, M.Sc. (Hons.), Ph.D. (Pb.), Ph.D. (London), Department of Zoology, Panjab University, Chandigarh, for his guidance and helpful criticism throughout the course of these investigations. The thesis would not have assumed its final form but for his valuable suggestions, corrections and improvement of the manuscript.

I also convey my gratitude to Professor S. Khera, Ph.D., D.Sc. for his suggestions in the completion of this work.

I am thankful to Dr. H.S. Vasisht, Ph.D. (Pb.), Chairman, Department of Zoology, Panjab University, Chandigarh, for necessary laboratory facilities in carrying out this research work.

I acknowledge my sincere thanks to Mr. P.P. Singh for his help in the sketches given in this manuscript.

The research work was carried out with the financial support from U.S.PL.480 Research Project, which is gratefully acknowledged.
My special thanks are due to my fellow students whose assistance has always been available to me in one form or the other.

Last but not least I am beholden to my husband and parents for the moral support provided to me throughout the course of my studies.

Kanwar Jit Kaur
