Acknowledgement

Though only my name appears on the cover of this thesis, a great many people have contributed to its completion. I owe my gratitude to all those people who have made this thesis possible and because of whom my post-graduate experience has been one that I will cherish forever.

First of all, I submit my thesis at the feet of Almighty. Today with humility, bowed head, misty eyes and folded hands, I am incapable of expressing my innermost into words. Research is an arduous task, which despite of hard labour also requires patience and courage — try, try and try again. This would only be made possible with the benediction and grace of Almighty.

The intertwining perplexity dwelling inside me while pening down my gratitude to the pillar of learning, my mentor and my revered guide, Prof. (Dr.) G. D. Gupta, Director Amar Shaheed Baba Ajit Singh Jujhar Singh Memorial College of Pharmacy BELA, (Ropar) for his invaluable guidance, incessant encouragement, constructive criticism, precious suggestions, crucial help, innovative ideas, passions in pharmacy, benevolent attention and tireless efforts and making me learn that “Research is doing what everyone has done but thinking what nobody has thought”. His clarity of mind, intelligence and attitude for quest for perfection encouraged me to put the drop of my hypothesis in the ocean of laws and phenomena’s.

I will never forget the moral and ethics they have induced within during this period. His time, resources and knowledge were all mines and helped me through the ups and downs I encountered during the period of research. I am thankful to God for providing me with an ideal teacher who deserves special thanks, being the best teacher one could ever have. I thank him for all the valuable lessons he taught me and providing excellent working facilities during my research work.

I owe my sincerest thanks to Capt. M. P. Singh, Chairman, ASBASJS Memorial College of Pharmacy, BELA for providing me the opportunity and all necessary facilities to accomplish this endeavor successfully.

I am extremely rapturous to put on record my earnest thanks to Mr. Ajay Kushwah, Sr. Lecturer, Department of Pharmacology, for his innovative ideas, timely help and patronage in scrutinizing the observations and sharing with me his pearls of wisdom to realize my goal.

I wish to express my deep-rooted gratefulness towards Mr. Manjir Kataki, Lecturer (Pharmacology) for their friendly support, edifying, enlightening discussions and timely suggestions during my research work.

I would like to register my sincere thank to S. Harvinder Singh, Mr. Dinesh Kalia, S. Labh Singh and Ms. Aruna Rani (Librarian), and other non-teaching staff for their timely help and cooperation.
especially Mr. Durga Bahadur, Care taker of Animal House, Mr. Harjeet Singh for their extending help and co-operation.

The word “Thanks” seems to be too small to express my feelings for my friends Ajit Jain, Idris Ali, and Rohit Lowlekar who have been an inseparably important part of what I have tried to achieve. Their heartiest love, earnest motivation and support have helped me see the best in life. (Real friendship is not just holding hands till the very end…).

I find it difficult to pen down my deepest sense of indebtedness towards my true students Kapil Kumar Verma, Vashita, Arvind Thakur and Maninder Singh who soulfully provide me with their constant support, timely doses of boosts and right impetus to undertake this challenge, for what I cannot measure but always treasure.

I pay my sincere thanks for my Mama Mr. Piyush Goyal for his blessings have always led me to tag along the right path. I cannot repay his silent patience and constant encouragement.

I would also to thank my uncle Amarjit Singh and aunt Charanjit Kaur for their constant and superb encouragement and support without which it couldn’t have been possible to achieve this goal.

I would like to thanks my beloved wife Mrs. Priyanka Singhal for rendering all sorts of help whenever and wherever it was needed. I am highly thankful to her for listening to my complaints and frustrations and for believing in me. Her patience during my studies is very much appreciated.

Special thank goes to my son Garvit Singhal.

Last but not the least, whatever endeavor I have put to prepare this work, it would not have been possible without the support of my Loving parents, who sacrificed a lot for my welfare and provided me the right impetus soulfully to undertake a challenge of this proportial. Words will fall short to express my feelings for my Papa. I watched my father as a very simple, down to earth and faultless person. He taught me the biggest lesson of life that is hard work, honesty, believe in me and God. He was the first person to tell me all I needed to know about the value of higher education in becoming a better person by his simple eloquence. Education commences at the mother’s knee, my Ma is the soul of my energy. Her blessings have always leaded me towards achieving my goals. I cannot repay her silent patience and constant encouragement. She stood by me whenever I felt let down, pepped me up when my spirit dampened.

My Brother Mr. Vaibhav Singhal and his wife Mrs. Roma Singhal are the soul of my energy. They are the only person who supported me and motivated me towards achieving my goals. I cannot repay their silent patience and constant encouragement. They provide me moral support and the right impetus to undertake the challenge of this proportion like all the spheres of life.

Last but not the least I would like to sincerely thanks my loving Didi and Jijaji and their kids, specially my mother in law who always prayed for my success.
For me, the road towards completion of this thesis was not a bed of roses. On various stages, I felt low and almost lost the hope of accomplishing whatever I had planned theoretically but the support of my well-wishers saw me through the twist and turns of the roads. And So, I again thank the Almighty for providing me an excellent opportunity to be amidst gentle, helpful and virtuous people.

The expertise in this study belongs to those acknowledged above. All errors are mine
