List of Tables

Table 1. Distribution and incidence of RA globally

Table 2. The American College of Rheumatology (ACR) criteria for radiological and clinical OA of the knee

Table 3. The 1987 ACR criteria for classification of RA

Table 4. A summary of previous proteomic studies on OA synovial fluid

Table 5. A partial list of proteins previously not reported in OA synovial fluid

Table 6. A list of peptides along with the transitions monitored for the proteins validated by MRM analysis

Table 7. A partial list of novel proteins upregulated in RA

Table 8. A partial list of novel proteins upregulated in OA

Table 9. List of upregulated proteins in RA involved in glycolytic pathway
