ACKNOWLEDGEMENTS

At this stage of ending my Ph.D. period, I must appreciate the people around me all throughout my academic journey, without whom this thesis would not have been a reality.

I wish to express my sincere thanks to my respected supervisor Dr. Dipak Kumar Dutta, Chief Scientist, Materials Science Division, CSIR-North East Institute of Science and Technology, Jorhat, Assam, for his outstanding supervision, astute guidance, constant encouragement throughout the course of my research work, which enabled me to complete this thesis without any obstruction. His enthusiastic attitude, innovative ideas and scientific knowledge have inspired me profoundly. I shall remain ever grateful in my life to him for his teaching, guidance, friendly approach and wonderful personality.

I would like to thank Dr. P. G. Rao, former Director and Dr. D. Ramaiah, Director CSIR-NEIST, Jorhat, for allowing me to carry out research and providing me all infrastructural facilities required for my research work. I am also thankful to Dr. P. Sengupta, Chief Scientist and Head, Materials Science Division, NEIST, Jorhat, for his constructive encouragement, valuable advices, constant support and cooperation during my research period. I also express my gratefulness to Dr. T. Goswami, Principal Scientist and Head, Cellulose Pulp and Paper Division, NEIST, Jorhat for his valuable suggestion, support and encouragement in my entire research work.
ACKNOWLEDGEMENTS

The invaluable supports rendered by the Analytical Chemistry Division, Glass Blowing Section and Knowledge Resource Centre (KRC) are gratefully acknowledged.

I would like to express my sincere thanks to all the Scientists, the technical and non-technical staff members of Materials Science Division and Cellulose Pulp and Paper Division for their kind cooperation and help in every possible way to complete this work. I am earnestly thankful to my lab mates Bhaskar da, Lakshi da, Siddhartha da, Bibek da, Biswajit da, Podma Pollov, Pallabi, Dimpi, Kokil, Ankana, Subrat, Pallav and Probin whose sharing thoughts, ideas, love and encouraging words have made my Ph.D. period more enjoyable. I would also like to extend my heartiest appreciation to my lab mates Dipulda, Pallav, Rupjyoti, Pallavi, Paranjoli, Nilakshi, Himadri and Puspa of CPP Division.

I express my deepest thanks to all my friends and well wishers specially Sanfaori, Pankaj, Sanjay, Apurba, Jyotirmoy, Saustov, Himangshu, Ashok, Lachit, Manash, Jintu, Chandan, Arup for their encouraging words and support in various aspects. I also convey my heartfelt thanks to Manash da, Saikat da, Mohit da, Jatin da, Madan da, Rupam da, Partha da, Kuldeep da, Rishi da, Utpal da, Rafiqul, Jiten, Swarup, Bulbul, Diganta, Sarat, Rajal, Dipen Singh, Kulendu, Ghana, Aditya, Debashis and all other members of the hostel.
ACKNOWLEDGEMENTS

I am also grateful to the faculty members and research scholars of the Department of Chemistry, Gauhati University, for their kind cooperation during my research tenure. I sincerely acknowledge and express my deep respect and gratitude to all my teachers for their immense contribution to my life.

Above all, words are not enough to express my love and gratitude to my family members. My brother Pankaj and sister Rimpi are greatly acknowledged for their unforgettable love, help and the facilities they provided to me. It also gives me great pleasure to thank all my ‘moha-mahi’, ‘mama-mami’ and beloved ‘Koka and Aaita’ for their love and encouragement to me over the years. I don’t know whether it is possible to convey my deepest gratitude and respect to my beloved parents in mere words, who were always there to support and inspire me and suffered lot of pain and personal sacrifices to make me competent enough to carry out my Ph.D. work. My achievements are dedicated to my parents now and always.

Finally, I must acknowledge that this thesis has seen the light of the day only by the Grace of ALMIGHTY.

Date: 06/04/2015

(Dipanka Dutta)
