CHAPTER 1 INTRODUCTION

1.1 Background to the study 1
1.2 Globalization and Culture 3
1.3 Cross Cultural issues 7
1.3.1 Cross Cultural issues affecting organization 7
1.3.2 Cross Cultural issues affecting expatriate adjustment 10
1.3.3 Work and family domains during international assignment 13
1.4 “India” as host nation for expatriates 15
1.5 Summary 19

CHAPTER 2 REVIEW OF THE LITERATURE

2.1 Introduction 21
2.2 Structure of Literature Review coverage 22
2.2.1 Spouse Support 24
2.2.2 Leader member exchange 25
2.2.3 Subordinate member exchange 27
2.2.4 Social tie characteristics with host nationals 28
2.2.5 Work life conflict 29
2.2.6 Satisfaction with Life 32
2.2.7 Expatriate Adjustment Process 33
2.3 Relationship between antecedents and facets of expatriate adjustment 36
2.3.1 Literature review based on effect of predictors on outcomes 37
2.3.1.1 Relationship between spouse support and expatriate adjustment 38
2.3.1.2 Relationship between spouse support and life satisfaction 39
2.3.1.3 Relationship between LMX and expatriate adjustment 40
2.3.1.4 Relationship between LMX and life satisfaction 40
2.3.1.5 Relationship between SLMX and expatriate adjustment 41
2.3.1.6 Relationship between social tie characteristics with host nationals and expatriate adjustment
2.3.1.7 Relationship between social tie characteristics and life satisfaction
2.3.2 Literature review based on indirect effect of predictors on mediators and mediators on outcomes
2.3.2.1 Relationship between spouse support and family-to-work conflict
2.3.2.2 Relationship between social ties and family to work conflict
2.3.2.3 Relationship between social ties and work to family conflict
2.3.2.4 Relationship between LMX and work to family conflict
2.3.2.5 Relationship between SLMX and work to family conflict
2.3.2.6 Relationship between family to work conflict and life satisfaction
2.3.2.7 Relationship between work to family conflict and life satisfaction
2.3.2.8 Relationship between life satisfaction and expatriate adjustment
2.3.2.9 Relationship within dimensions of expatriate adjustment

2.4 Research Gap
2.5 Summary

CHAPTER 3 RESEARCH METHODOLOGY

3.1 Introduction
3.2 Selecting the research design
3.2.1 Philosophical worldview
3.2.2 Strategies of inquiry
3.2.3 Research Method
3.2.4 Research design adopted in the present study
3.2.4.1 Postpositivist philosophical worldview
3.2.4.2 Quantitative Strategy of Inquiry
3.2.4.3 Quantitative Research Method
3.3 Research Question
3.4 Research objectives
3.5 Hypothesis Development
3.6 Sampling design
3.6.1 Target Population 70
3.6.2 Sampling frame 70
3.6.3 Sampling technique 71
3.6.4 Sample Size 71
3.7 Data Collection Procedure 72
3.8 Data collection instruments and constructs (Measurement Scales) 73
3.8.1 Spousal support 73
3.8.2 Leader member exchange 74
3.8.3 Supervisor’s perspective of Leader member exchange 74
3.8.4 Social tie characteristics 75
3.8.5 Satisfaction with life 76
3.8.6 Expatriate adjustment 76
3.8.7 Work-life conflict 76
3.9 Participants 77
3.10 Statistical technique 78
3.11 Summary 79

CHAPTER 4: ANALYSIS AND RESULTS

4.1 Introduction 81
4.2 Pilot Study 81
4.3 Data Screening 83
4.4 Analysis for Research objective-01 83
4.4.1 Exploratory Factor Analysis (EFA) 83
4.4.2 Confirmatory Factor Analysis (CFA) 86
4.4.2.1 Measurement Model Invariance 88
4.4.2.1.1 Configural invariance tests 90
4.4.2.1.2 Metric invariance tests 90
4.4.2.2 Consideration for Common Method Bias (CMB) 91
4.4.2.2.1 Harman Single-Factor Test 91
4.4.2.2.2 Common latent factor Test (CLF) 91
4.4.2.3 Data Imputation 93
5.2.9 Social tie characteristics with HCN’s is positively related to interaction adjustment
5.2.10 Social tie characteristics with HCN’s is positively related to work adjustment

5.3 Discussion based on outcomes of Research objective-02
5.3.1 Spousal support is negatively related to family to work conflict
5.3.2 Social ties with HCN’s is negatively related to family to work conflict
5.3.3 Social ties with HCN’s is negatively related to work to family conflict
5.3.4 LMX is negatively related to work to family conflict
5.3.5 SLMX is negatively related to work to family conflict
5.3.6 Family to work conflict is negatively related to Life satisfaction
5.3.7 Work to family conflict is negatively related to Life satisfaction
5.3.8 Satisfaction with life is positively related to work adjustment
5.3.9 Satisfaction with life is positively related to general adjustment
5.3.10 Satisfaction with life is positively related to interaction adjustment
5.3.11 Interaction adjustment is positively related to general adjustment
5.3.12 Work adjustment is positively related to general adjustment

5.4 Summary

CHAPTER 6 CONCLUSION
6.1 Introduction
6.2 Synthesis of the research study
6.3 Recommendations
6.4 Contribution of the research study
6.5 Policy implications
6.5.1 Theoretical implications for Scholars
6.5.2 Practical implications for Managers
6.6 Limitations
6.7 Future research directions
6.8 Conclusion
APPENDIX A: CONFIDENTIALITY AGREEMENT LETTER 151
APPENDIX B: DATA COLLECTION INSTRUMENTS 152
APPENDIX C: DEMOGRAPHIC QUESTIONNAIRE 158
