ABSTRACT                       iv

ACKNOWLEDGEMENT                v-vi

CONTENTS                      1-2

NOTATIONS                       3-4

1. INTRODUCTION                 5-13
   1.1 Background and Motivation  5-8
   1.2 Literature Survey          9-11
   1.3 Structure of Work         12-13

2. Skew polynomial rings        14-37
   2.1 Preliminaries             14-22
   2.2 Prime ideals of skew polynomial rings  22-26
   2.3 Completely prime ideals of skew polynomial rings  26-34
2.4 Near completely prime ideals of Polynomial rings 35-37

3. \(\sigma(*)\)-rings 38-45

3.1 Completely prime ideals of skew polynomial rings over \(\sigma(*)\)-rings 39-44

3.2 Near completely prime ideal rings of skew polynomial rings over \(\sigma(*)\)-rings 44-45

4. Transparent rings 46-54

4.1 Primary Decomposition (commutative) 46-48

4.2 Transparency of skew polynomial rings (non-commutative analogue of primary decomposition) 48-54

5. Transparency of skew polynomial rings over Noetherian rings 55-66

5.1 Transparency of skew polynomial rings over \(\sigma(*)\)-rings 55-58

5.2 Transparency of skew polynomial rings over weak \(\sigma\)-rigid rings 58-64

5.3 Transparency of skew polynomial rings over a commutative Noetherian \(\mathbb{Q}\)-algebra 64-66

6. Conclusion and future work 67-68

Bibliography 69-76

Brief CV of Kiran Bala Chib 77-78
