ACKNOWLEDGEMENTS

This thesis grew out of a series of dialogues with my supervisor Dr. Munindra Borah, Professor, Department of Mathematical Sciences, Tezpur University. His comments on chapter drafts are themselves a course in critical thought, upon which I will always draw. Without his constant inspiration and encouragement, the present work would not have been possible.

A special appreciation goes to Prof. G. L. Sriwastav, Visiting Professor, Department of Mathematical Sciences, Tezpur University. His advice on interpreting the results and productive comments on an earlier draft directly contributed to this study.

I would like to express my heartiest thanks to Dr. D. Hazarika, Professor and Head, Department of Mathematical Sciences, Tezpur University, other faculty members and staff members of the Department of Mathematical Sciences, for their encouragements.

I am extremely grateful to the Tezpur University for providing me financial assistance in the form of an institutional scholarship during the period August, 2007 to August, 2009 for carrying out my research.

My husband Mr. Amar jyoti Sarma deserves special thanks for his constant support without which it would have been difficult to complete my work. I would also like to offer my deep sense of gratitude to my parents Mr. K.C. Doloi and Mrs. Ruli Doloi for their inspiration and blessings throughout my academic career. I also owe a lot to my extended family Mr. P.C. Sarma, Saurav, Utpal da, Kumkum ba, Hiya, Kabita and all the family members for their invaluable contributions in my life.

Last but not the least, I thank Jonali, Surobhi, Abhijeet da, Bimalendu, Ambeswar da, Ajanta ba, Kanan, Tazzudin, Narayan, Poudel Sir, Anjan da, Dipok, Dibya and Naba with whom the time spent in the last five years was enjoyable and memorable.
Finally, I would like to thank everybody who was important to the successful realization of this thesis, as well as expressing my apology that I could not mention personally one by one.
