List of publications:

[1]. Growth of aligned ZnO nanorods array on ITO for dye sensitized solar cell
   **Ashish Yengantiwar**, R. Sharma, O. Game and A. Banpurkar
   **Current Applied Physics, 2011, 11 (1), S113-S116.**

[2]. Zinc Oxide (ZnO) Nanorods Based Ultraviolet Photoswitchable Device Configuration
   **Ashish Yengantiwar, S. K. Date** and Arun Banpurkar
   (Communicated to ICMAT13)

   Arif Sheikh, **Ashish Yengantiwar**, Meenal Deo, Sarika Kelkar, Satishchandra Ogale,
   **Small, 2013, DOI: 10.1002/smll.201202140.**

[4]. ZnO-Cu$_2$O Multiscale Hetero-nanostructures for the Sustainable Superhydrophobicity
   **Ashish Yengantiwar**, Meenal Deo, Satishchandra Ogale and Arun Banpurkar
   (Manuscript under preparation)

[5]. Shape preserving chemical transformation of ZnO mesostructures into anatase
   TiO$_2$ mesostructures for optoelectronic applications”
   Subas Muduli, Onkar Game, Vivek Dhas, **Ashish Yengantiwar** and Satishchandra Ogale
   **Energy & Environmental Science, 2011, 4, 2835-2839.**

[6]. Strong Photo-Response in a Flip-Chip Nanowire p-Cu$_2$O/n-ZnO Junction
   Meenal Deo, Sarfraj Mujawar, Onkar Game, **Ashish Yengantiwar**, Arun Banpurkar,
   Sneha Kulkarni, Jyoti Jog and Satishchandra Ogale,
   **Nanoscale, 2011, 3, 4706-4712.**

[7]. A Quasi-Liquid Iontronic–Electronic Light-Harvesting Hybrid Photodetector with Giant Response
   Lily Mandal, Meenal Deo, **Ashish Yengantiwar**, Arun Banpurkar, Jyoti Jog and Satishchandra Ogale
   **Advanced Materials, 2012, 24, 3686–3691.**

[8]. Cu$_2$O/ZnO Hetero-nanobrush: Hierarchical assembly, Field Emission and Photocatalytic Properties
   Meenal Deo, Deodatta Shinde, **Ashish Yengantiwar**, Jyoti Jog, Beatrice Hannoyer,
   Xavier Sauvage, Mahendra More and Satishchandra Ogale
