ACKNOWLEDGEMENT

I take this opportunity to express my gratitude to Dr. J. S. Tiwari, Reader in Chemistry, for suggesting the topic of this thesis. It was his painstaking supervision of the work which could enable me to finish the work.

I express my deep sense of gratitude to Professor R. K. Mishra, Head, School of Studies in Chemistry, Pt. Ravishankar Shukla University, Raipur, for providing facilities of space and experimentation.

My thanks are due to Pt. Ravishankar Shukla University, Raipur for the award of fellowship.

It is a pleasure to record my thanks to the authorities of CDRI and CIMAP, Lucknow, for providing spectra and other experimental facilities.

The author expresses gratitude to Dr. S. G. Tandon, Professor of Chemistry; Dr. G. L. Mundhara, Reader in Chemistry; Dr. M. L. Naik, Professor in Bioscience; Pt. Ravishankar Shukla University, Raipur and Professor G. D. Tiwari of Govt. D. G. Girls' P.G. College, Raipur for their valuable discussions and guidance. The author expresses thanks to all the other members of School of Studies in Chemistry for their help.
I consider it my duty to inscribe my gratitude to my fellow research workers.

The present study would not have been possible without the blessings of my parents and encouragement from other family members. I am indebted to all of them.

Lastly, I convey my thanks to all those who helped me directly or indirectly in the completion of this work.

(MISS NIDHI RAJPAI)
Research Scholar
S.O.S. in Chemistry
Pt. Ravishankar Shukla University, Raipur (M.P.)
