ACKNOWLEDGEMENT

I deem it a matter of great pleasure in expressing my profound indebtedness to Dr. K.P. Dwivedi, M.Sc., Ph.D., Department of Zoology, C.M. Dubey Post-graduate College, Bilaspur for his implantation in to the author's mind, the concept of the present study. It was under his able supervision that the entire work was carried out at the zoological laboratory of the college.

The author feels grateful to the Principal, C.M.D. P/G College and Professor B.L. Keskarwani, Head of the Zoology Department, C.M.D. P/G College for providing laboratory and library facilities of the present work.

The author also feels indebted to Shri B.S. Deshmukh, Officer-in-Charge, Coal Survey Laboratory (C.S.I.R.) Bilaspur and his collaborator Shri B.L. Shah, as without the help extended by them, it would have not been possible to face the task of estimating the Nitrogen, Phosphorus and Potassium contents of the experimental samples.

The author's gratefulness is also due to Professor K.R. Raman, Head, Physics Department, for providing measuring and calculation equipment; Dr. S.C. Srivastav, presently Reader, Economics Department, University of Ujjain,
who was of great help during the statistical analysis; and Dr. A.M. Agarwal, Botany Department for his occasional advices, towards vegetational aspects of the present study. The author’s sincere thanks are also due to Dr. Frank R. Colley, Director, Institute of Ecology, University of Georgia, Dr. H. Lecoq (Montpellier-Cedex), France and Dr. M.L. Roongwal, Emeritus Scientist (CSIR) Desert Regional Station, Zoological Survey of India, Jodhpur, for their helps in supplying reprints pertaining to the present investigation.

In the end, the present study is an outcome of the blessings of my revered parents, and silent encouragements from my brothers, to all of whom I am much indebted.

KVSankaran
(K.V.S. RAO)

Research Scholar,
Department of Zoology,
C.S.I.R. Post-Graduate College,
D.I.T., SPUR, M.P.
