# LIST OF TABLES

<table>
<thead>
<tr>
<th>Table No.</th>
<th>Content</th>
<th>Page No.</th>
</tr>
</thead>
<tbody>
<tr>
<td>2.1</td>
<td>Prevalence studies of Emotional/Behavioural problems-Community and National Surveys.</td>
<td>15-22</td>
</tr>
<tr>
<td>2.2</td>
<td>Prevalence studies since 1980..</td>
<td>25-35</td>
</tr>
<tr>
<td>3.1</td>
<td>Brief description of the villages selected for the study.</td>
<td>124</td>
</tr>
<tr>
<td>3.2</td>
<td>Educational facilities in the five villages.</td>
<td>126</td>
</tr>
<tr>
<td>3.3</td>
<td>Sample size in different groups.</td>
<td>129</td>
</tr>
<tr>
<td>3.4</td>
<td>Mean, age &amp; SD of age for children in different groups.</td>
<td>130</td>
</tr>
<tr>
<td>3.5</td>
<td>The mean and SD for parents' age in years and their socio economic status.</td>
<td>131</td>
</tr>
<tr>
<td>3.6</td>
<td>Measurement devices used in different phases of the study.</td>
<td>132</td>
</tr>
<tr>
<td>3.7</td>
<td>Inter-rater correlation based on two independent ratings for EBPI.</td>
<td>139</td>
</tr>
<tr>
<td>4.1</td>
<td>The prevalence of Emotional/Behavioural disorders among boys and girls from urban and rural settings.</td>
<td>178</td>
</tr>
<tr>
<td>4.2</td>
<td>Frequencies of Urban preschoolers in whom the given symptoms of PBCL appeared from a moderate to severe degree.</td>
<td>179</td>
</tr>
<tr>
<td>4.3</td>
<td>Frequencies of Rural preschoolers in whom the given symptoms of PBCL appeared from a moderate to severe degree.</td>
<td>180</td>
</tr>
<tr>
<td>4.4</td>
<td>The mean and SD of scores on dependent variable measures.</td>
<td>184 - 18</td>
</tr>
<tr>
<td>4.5.1</td>
<td>Religion: Frequency in different groups.</td>
<td>190</td>
</tr>
<tr>
<td>4.5.2</td>
<td>Family history: Frequency in different categories.</td>
<td>191</td>
</tr>
<tr>
<td>4.5.3</td>
<td>Consanguinity: Frequency of presence/absence</td>
<td>192</td>
</tr>
</tbody>
</table>
4.6.1 Birth history: Frequency and chi square for different categories.

4.6.2 Developmental history: The frequency and chi square for motor, speech and language and adaptive developmental milestones of children.

4.6.3 Past medical history of children in four different groups.

4.7.1 Means, SD & F Ratios on the variables of Emotional/Behavioural problem Inventory for Normal and Disturbed children.

4.7.2 Means, SD & F Ratios on Temperament Measurement Schedule for the Normal and Disturbed children.

4.7.3 Means, SD & F Ratios on the variables of Social Competence Scale for the Normal and Disturbed children.

4.7.4 Means, SD & F Ratios on Binet-Kamat Test of Intelligence and Embedded Figure Test for the Normal and Disturbed children.

4.8.1 Means, SD & F Ratios on the variables of General Health Questionnaire for the mothers of Normal and Disturbed children.

4.8.2 Means, SD & F Ratios for PARI variables of mothers of Normal and Disturbed children

4.8.3 Means, SD & F Ratios for the variables of Family Interaction for the Normal and Disturbed children.

4.9.1 Means, SD & F Ratios for differences between Urban and rural preschoolers on the variables of EBPI.

4.9.2 Means, SD & F Ratios of urban and rural children on the variables of TMS.

4.9.3 Means, SD & F Ratios of Urban and Rural children on the variables of SCS.

4.9.4 Means, SD & F Ratios of Urban and Rural children for the scores on Binet-Kamat Test of intelligence and Embedded Figure Test.
4.10.1 Means, SD & F Ratios for the GHQ, scores of the mothers of Urban and Rural preschoolers.

4.10.2 Means, SD & F Ratio for the variables of PAR1 for mothers of urban and rural preschoolers.

4.10.3 Means, SD & F Ratios for urban and rural groups on the variables of FIS.

4.11 Means, SD & F Ratios for the four groups of preschoolers viz., Urban Disturbed (UD) Urban Normals (UN) Rural Disturbed (RD) & Rural Normals (RN).

4.12.1 Canonical Discriminant Functions evaluated at groups means (group centroids), Eigen values, & percent of variance for group differences.

4.12.2 Structure Matrix for group differences based on Canonical Discriminant Functions.

4.13.1 Canonical Discriminant Functions evaluated at group means (group centroids), Eigen values & percent of variance for age groups.

4.13.2 Structure Matrix for age group differences based on Canonical Discriminant Function.

4.14.1 The Canonical Discriminant Functions evaluated at group means (group centroids), Eigen values and percent of variance for birth order differences.

4.14.2 Structure Matrix for birth order groups based on Canonical Discriminant Functions.

4.15 Means, SD for scores on dependent variables measure and the respective F Ratios for SES differences.

4.16.1 A comparison of the pre and post performance of Emotionally Disturbed Children in Experimental and control groups on EBPI.

4.16.2 A comparison of the pre and post performance of emotionally disturbed children in Experimental and control groups on SBC.

4.16.3 A comparison of the pre and post performance of Emotionally Disturbed and Control group children on SCS.
