CONTENTS

Preface
Acknowledgements
List of Figures
List of Tables

1. INTRODUCTION 1-13

1.1 General
1.2 Polymers
1.3 Conducting Polymers-An overview
1.4 Literature Survey
1.5 Polyaniline
1.6 Aim and Scope
1.7 The Dissertation

2. EXPERIMENTAL METHOD 14-17

2.1 Introduction
2.2 Synthesis of Polyaniline
2.3 Preparation of Polyanililne
2.4 Synthesis of Polyaniline-Metal halide composites

3. CHARACTERIZATION 18-25

3.1 Introduction
3.2 UV-Visible Spectra
3.3 IR Spectra
3.4 X-ray diffraction
3.5 Current-Voltage Characteristics
3.6 D.C conductivity
3.7 Scanning Electron Microscopy

4. RESULTS AND DISCUSSIONS 26-40

4.1 Introduction
4.2 UV-Visible spectroscopy
4.3 IR spectra
4.4 X-Ray diffraction studies
4.5 Current-Voltage Characteristics
4.6 Temperature Effect on Electrical Conductivity
4.7 Scanning Electron Micrographic analysis

5. CONCLUSIONS 41-42

5.1 Introduction
5.2 Conclusions
5.3 Suggestions for future work

REFERENCES 43-47
