I express my special gratitude to Dr. (Mrs.) I. Manorama Thomas, B.Sc., (Hons.), M.B.B.S., M.S., Professor and Head, Department of Anatomy and Head, Division of Human Genetics, St. John's Medical College, Bangalore for her invaluable guidance, that has helped me to complete my thesis with ease.

I am thankful to Dr. A.F.A. Mascarenhas M.S., F.R.C.S., Principal, St. John's Medical College, for providing me with the necessary facilities for my research work.

I am thankful to Dr. Krishna Bhargava, M.D., Director, Kidwai Memorial Institute of Oncology (KMIO) Bangalore for giving me permission to use the X-ray equipment and to Mr. Ravichandran M.Sc., D.R.P, Professor and Head, Department of Radiation Physics and to all the Physicists at KMIO for helping me in calibration and irradiation procedures.

I am thankful to the clinicians at the Division of Human Genetics, Dr. Sridevi Hegde, M.B.B.S., D.C.H., Dr. Raghuveer, M.D., and Dr. Chandra Revimohan, M.B.B.S., D.G.O., for clinical diagnosis.

My special thanks to Professor Dr. A.T. Natarajan, University of Leiden, The Netherlands, and Professor Dr. J.R.K. Savage, MRC - Radiobiology Unit, Didcot, U.K. for their critical comments and suggestions on the experimental design.

I am thankful to Dr. Alan Edwards (National Radiological Protection Board, Didcot, U.K) for statistical help.

I am thankful to Dr. John A. Thomas, Professor and Head, Department of Pathology, St. John's Medical College, for his valuable suggestions and encouragement throughout the preparation of this thesis.

I express my heartfelt thanks to all my colleagues at the Division of Human Genetics who have been a source of inspiration throughout my research work.

It is acknowledged that the practical work of this thesis was financially supported by the Department of Science and Technology, and Indian Council of Medical Research (ICMR), New Delhi, from the grants provided to Dr. I. Manorama Thomas, and ICMR Junior Research Fellowship awarded to me for one year.
