Acknowledgments

First of all, my deepest gratitude to the God Almighty for his providence and blessings.

I would like to thank all people who made this doctoral study possible. Mentioning all people who deserve my gratitude without leaving someone out is quite a difficult task, but I will try to do my best.

I especially want to express my sincere gratitude to my supervisor Dr. Rajesh N. Patel (Professor and Head, Mechanical Engineering Department, Institute of Technology, Nirma University) for his invaluable guidance, kind cooperation, infallible suggestions, constant encouragement and moral support throughout the research work.

I would also like to thank members of my research progress committee, Prof. Anuradda Ganesh (Professor and Head, Department of Energy Science and Engineering, IIT, Bombay) and Prof. N.M. Bhatt (Director, Gandhinagar Institute of Technology, Ahmedabad) for their valuable suggestions and insightful comments given during my all progress seminars. I specially thank Prof. S.A. Channiwala (Professor, Mechanical Engineering Department, SVNIT, Surat) for their guidance and support during my research. I am happy to express thanks to Dr. B.S. Pathak (Ex-Director, SPRERI, V.V. Nagar) for introducing me to the field of gasification. I am grateful to Commissionerate of Technical Education (CTE) for granting permission to pursue Ph.D.

I am thankful to Dr. K Kotecha (Director, Institute of Technology, Nirma University) and Dr. A.S. Patel (Dy. Registrar, Nirma University) for their support. I would also like to thank staff of Ph.D. section especially Ms. Prashya and Sachin Kikani for their help whenever required.

I recognize that this research would not have been possible without the financial support (Project No: SR/S3/MERC-0114/2010) from the Department of Science and Technology (DST), New Delhi, India. I gratefully acknowledge DST for their financial support to undertake this study.
I am thankful to Prof. Famina Patel (Associate Professor, Chemical Engineering Department, Institute of Technology, Nirma University) for helping me in understanding Gas Chromatography and providing the facility for testing gas samples.

I am grateful to the management of Nirma University for providing the separate space for experimental set-up and to carry out experimental work round the clock. I am also thankful to M.Tech. students Hardik, Darshit, Nandan and Vinay for their help during my research.

I express my sincere thanks to my colleague Prof. Dipak Parmar (Assistant Professor, Mechanical Engineering Department, L.D. College of Engineering, Ahmedabad) for his help in learning the software (Engineering Equation Solver) during model study. I am also thankful to Prof. Sanjay V. Jain (Associate Professor, Mechanical Engineering Department, Institute of Technology, Nirma University), Prof. Digesh Shah (Assistant Professor, Mathematics, General Department, L.D. College of Engineering, Ahmedabad), Prof. Saumil Shah (Assistant Professor, Mechanical Engineering Department, L.D. College of Engineering, Ahmedabad), Prof. Shyam Dabhi (Assistant Professor, Mechanical Engineering Department, L.D. College of Engineering, Ahmedabad), Prof. Saurabh Shah (Assistant Professor, Mechanical Engineering Department, L.D. College of Engineering, Ahmedabad), Prof. Mazar Shaikh (Assistant Professor, Automobile Engineering Department, L.D. College of Engineering, Ahmedabad), Prof. Paresh Patel (Assistant Professor, Automobile Engineering Department, L.D. College of Engineering, Ahmedabad) for their help during the research work. I must admit the help, cooperation, I got from my friend Bhavik Patel.

I express my heartfelt gratitude to my father, mother, Late grandmother and uncle for their constant support and encouragement. Finally indebted to my wife Rita and son Aayudh and Advait, who have taken pains along with me and without which this work would not have seen the light of success.

At last, I extend my sincere thanks to all those who helped me directly or indirectly in the research work.

Date: 22/06/2015

Vimal R. Patel
