Acknowledgements

First of all, I thank THE GOD ALMIGHTY for his blessings that have provided me strength in my life. I am thankful for the love, power, courage and wisdom and his presence at each step of my life. It is He who has blessed me with the people whose names I feel privileged to mention here.

Abraham Lincoln said, "It is the supreme art of the teacher to awaken joy in creative expression and knowledge" and I take immense pleasure in dedicating above phrase to my guide Dr. D S Sharma. I express my sincere gratitude for the constant support, encouragement, guidance, informative discussions on various scientific issues and for the scientific attitude he has nurtured in me during tenure of my Ph.D. which made him a backbone of this research and so to this thesis.

I am sincerely thankful to Dr. K Kotecha, Director, Institute of Technology, Nirma University, Dr. R N Patel, HOD Mechanical Engineering and all faculties especially Mrs. Reena Trivedi, Mr. Jatin Dave and Mr. Mihir Chauhan for their support throughout the course. I am very thankful to Mrs. Reena Trivedi whose profound interest and knowledge helped me to broaden the horizon of my understanding of the genetic algorithm.

I would like to thank the members of my research progress committee, Dr. Dhaval Jani, Professor, Mechanical Engineering Department, ADIT, Vidhyanagar and Dr. P V Patel, Professor, Civil Engineering Department, Nirma University for their encouragement, insightful comments and kind guidance.

I would like to express my heartfelt thanks to Dr. N M Bhatt, Director, Gandhinagar Institute of Technology, Gandhinagar and Mr. M J Mungla, Professor, Mechanical Engineering Department, Indus Institute of Technology and Engineering, Ahmedabad for providing facilities and support. I am profoundly grateful to faculties and friends of Mechanical Department, Gandhinagar Institute of Technology, Gandhinagar, Mr. Vishal Vyas, Mr. Chirag Vyas, Mr. Mukesh Khemani, Mr. Parth Panchal, Mr. Harshal Ozha and Mr. Hardik Kothadia for their selfless support, warm hospitality and help whenever required and also to our lab assistant Chintanbhai and Jadavkaka.

I wish to express my deep sense of gratitude to Dr. S S Kachhwaha, HOD, Pandit Deendayal Petroleum University and my friends and colleagues, Mr. Kush Mehta, Mr. Jaydeep Patel, Mr. Bhargav Gadhvi, Mr. Jay Vora, Mr. Vivek Patel, Mr. Shabbir Memon, Mr. Naimish Bhatt, Mr.
Garlapati Nagababu, Mr. Parth Prajapati and Mr. Rakesh Chaudhari for their continuous motivation, warm hospitality, sharing happiness and helping me with my doubts and difficulties. I am very thankful to Mr. Kush Mehta for his guidance in research paper writing and also to Mr. Jaydeep Patel for guidance in thesis writing.

"A friend is a person who shows us the way and walks a piece of the road with us". I will always cherish the memories of time we had together in my life with beloved friends: Fulesh, Vishal, Chirag, Mukesh, Parth, Harshal, Hardik Kothadia, Hardik Nayak, Jay, Chintu and Pankaj. I am highly indebted to Fulesh for her love, care, support and help in writing work.

I would also like to thank Dr. S S Rajput for his support, confidence and motivation during my studies. Last but the most important, I would like to thank my parents Mr. Pravinbhai and Mrs. Ushaben, and my sweet little sister Meghna and her husband Viren jiju, whose love, selfless care, trust, consistent prayers, affectionate blessings, endless confidence and support has made me whom I am. Finally, my appreciation is devoted to all the members of my family for their love, blessings, encouragement and moral support in my study especially to my uncle Dr. A L Patel for believing in my capabilities.

This work has been possible due to motivation and support of various individuals who gave me sound advice and guidance on numerous occasions throughout my years as a Ph.D. student at the Institute of Technology, Nirma University, Ahmedabad. With profound appreciation, I acknowledge to one and all.

Nirav Patel
