LIST OF FIGURES

Fig. 1.1 1973 and 2010 fuel shares of energy consumption ...................... 2
1.2 Outlook of Economy vis-a-vis of that of India and China ................. 3
1.3 Energy Demand Projections (2035) ............................................. 4
1.4 Global energy Demand by 2035 .................................................. 6
1.5 Global Wind Energy Capacity, 1996 – 2012 ............................... 7
1.6 Global Solar PV Capacity, 1995 – 2012 ...................................... 7
1.7 India’s total Oil and Gas Reserves ............................................. 13
1.8 India’s Oil and Gas Market dynamics ........................................... 13
1.9 India’s oil Production and consumption ...................................... 14
1.10 Trend in production of Crude oil and Natural Gas in India ............. 16
1.11 Trends in production of Crude oil and Natural Gas in India .......... 18
1.12 Demand supply balance of Natural Gas in India ....................... 20
4.1 India’s oil Imports ................................................................. 63
4.2 Historical Trend of Crude Oil Prices ......................................... 64
4.3 Oil import bill under different scenario conditions ...................... 66
4.4 Oil Import bill under scenarios A and B ..................................... 66
4.5 Crude Oil import value in scenario two ..................................... 67
4.6 LNG Import value .................................................................. 68
4.7 Price trend of Indian Basket of Crude Oil ................................... 72
4.8 Depreciation of Rupee against US Dollar ................................... 73
5.1 Different regimes in the matter of mining lease/ licenses
for exploration/ production of oil and gas ...................................... 79
5.2 Pre- NELP and NELP exploration blocks under
operation by NOCS and private .................................................. 81
6.1 China’s contribution to oil demand growth 2010 - 2015-01-23 ........ 99
6.2 Long term outlook for China’s Oil Production and Imports .......... 99
6.3 Basin of Shale Gas in North America ...................................... 105
7.1 Proposed Pipelines from Central Asia to India ............................ 114
7.2 Production and Consumption of Natural Gas in Europe .............. 115
7.3 Pipelines from Europe ............................................................ 116
7.4 Natural Gas scenario in Europe – Imports from Russia ............... 116
7.5 Natural gas Scenario in Europe EU Gas Imports ...................... 117
7.6 Economics of Cross – border pipeline vis-a-vis LNG .................. 117
8.1 Natural Gas trading hubs in North America .............................. 125
8.2 Projected Henry Hub prices of Oil and Gas ............................... 127
8.3 Gas Trading in North America ............................................... 129
8.4 LNG Cost break-up ............................................................... 130
