Table 08: Details of Marks Obtained by Second Standard Students of Govt. Primary School, Tippenahalli.
Table 09: Details of Marks Obtained by Second Standard Students of Prajna Vidya Nikethan, Bytarayanapura, in Bengaluru District.
Table 10: Details of Marks Obtained By Second Standard Students of Govt. Primary School, Hokkadigoli.
Table 11: Details of Marks Obtained By Second Standard Students of Akshara Bharathi Vidyalaya, Vamada Padvu.
Table 12: Details of Marks Obtained by Second Standard Students of Govt. Primary School, Naubad.
Table 13: Details of Marks Obtained By Second Standard Students of Jnana Sudha English Medium School, Bidar.
Table 14: Details of Marks Obtained By Second Standard Students of Govt. Primary School, Hardanahalli.
Table 15: Details of Marks Obtained By Second Standard Students of Universal Learning School, Chamaraja Nagar.
Table 16: Details of Marks Obtained by Second Standard Students of Bengaluru District.

Table 17: Details of Marks Obtained by Second Standard Students of Dakshina Kannada District.

Table 18: Details of Marks Obtained by Second Standard Students of Bidar District.

Table 19: Details of marks obtained by Second Standard students of Chamaraja Nagara District.

Table 20: Details of Marks Obtained by Fourth Standard Students of Govt. Primary School, Tippenahalli.

Table 21: Details of Marks Obtained By Fourth Standard Students of Prajna Vidya Nikethan, Bytarayanapura, in Banagalore District.

Table 22: Details of Marks Obtained by Fourth Standard Students of Govt. Primary School, Hokkadigoli.

Table 23: Details of Marks Obtained by Fourth Standard Students of Akshara Bharathi Vidyalaya, Vamada Padvu.

Table 24: Details of Marks Obtained by Fourth Standard Students of Govt. Primary School, Naubad.

Table 25: Details of Marks Obtained By Fourth Standard Students Of Jnana Sudha English Medium School, Bidar.

Table 26: Details Of Marks Obtained By Fourth Standard Students Of Govt. Primary School, Hardanahalli.

Table 27: Details of Marks Obtained By Fourth Standard Students of Universal Learning School, Chamaraja Nagar.

Table 28: Details of Marks Obtained by Fourth Standard Students of Bengaluru District

Table 29: Details Of Marks Obtained By Dakshina Kananda Standard Students Of Bidar District.
Table 30: Details Of Marks Obtained By Fourth Standard Students Of Bidar District.

Table 31: Details Of Marks Obtained By Fourth Standard Students Of Chamaraja Nagara District.

Table 32: Details of marks obtained by sixth standard students of Govt Primary School, Tippenahalli.

Table 33: Details of Marks Obtained By Sixth Standard Students of Prajna Vidya Nikethan, Bytarayanapura, In Banagalore District.

Table 34: Details Of Marks Obtained By Sixth Standard Students Of Govt. Primary School, Hokkadigoli.

Table 35: Details of Marks Obtained by Sixth Standard Students of Akshara Bharathi Vidyalaya, Vamada Padvu.

Table 36: Details of Marks Obtained By Sixth Standard Students of Govt. Primary School, Naubad.

Table 37: Details of Marks Obtained by Sixth Standard Students of Jnana Sudha English Medium School, Bidar.

Table 38: Details of Marks Obtained By Sixth Standard Students of Govt. Primary School, Hardanahalli.

Table 39: Details of Marks Obtained by Sixth Standard Students of Universal Learning School, Chamaraja Nagar.

Table 40: Details of Marks Obtained by Sixth Standard Students of Bengaluru District.

Table 41: Details of Marks Obtained by Sixth Standard Students of Dakshina Kannada District.

Table 42: Details of Marks Obtained By Sixth Standard Students of Bidar District.

Table 43: Details of Marks Obtained by Sixth Standard Students of Chamaraja Nagara District.
Table 44: Details of Marks Obtained by Students of Govt. Primary School, Tippenahalli, Bengaluru District.

Table 45: Details of Marks Obtained by Students of Prajna Vidya Nikethan, Byatarayanapura, Bengaluru District.

Table 46: Details of Marks Obtained by Students of Govt. Primary School, Hokkadigoli, Dakshina Kannada District.

Table 47: Details of Marks Obtained by Students of Akshara Bharathi Vidyalaya, Vamada Padvu.

Table 48: Details of Marks Obtained by Students of Govt Primary School, Naubad, Bidar.

Table 49: Details of Marks Obtained by Students of Jnana Sudha English Medium School, Bidar.

Table 50: Details of Marks Obtained by Students of Govt. Primary School, Haradanahalli.

Table 51: Details of Marks Obtained by Students of Universal Learning School, Chamarajanagara.

Table 52: Details Of Marks Obtained By Students Of Bengaluru District.

Table 53: Details of the Marks Obtained by Students of Dakshina Kannada District.

Table 54: Details of the Marks Obtained by Students of Bidar District.

Table 55: Details of the Marks Obtained by Students of Bidar District.

Table 56: Details of the Marks Obtained by Students of Kannada Medium.

Table 57: Details of Marks Obtained by Students of English Medium Schools.

Table 58: Details of Marks Obtained by Students of Rural Schools of Karnataka.

Table 59: Details of marks obtained by students of Urban Schools of Karnataka.

Table 60: Details of Marks Obtained by Male Students of Karnataka.

Table 61: Details of the Marks Obtained by Female Students of Karnataka.

Table 62: Details of the Marks Obtained by the Over All Sample Group in Karnataka.
Table 63: Details of the Marks Obtained by the Sample Group in Maths Subject

Table 64: Details of the Marks Obtained by the Sample Group in Science Subject

Table 65: Details of the Marks Obtained by the Sample Group in Language Subject

Table 66: Distribution of Sample According to their Gender

Table 67: Distribution of Sample according to their age

Table 68: Distribution of Sample According To Their Qualification

Table 69: Distribution of Sample according To Their Teaching experience

Table 70: Distribution of Sample According To their District

Table 71: Distribution of Study Results According To the Medium of Instruction

Table 72: Distribution of Study Subjects According to the Statement that use of animation is more effective than traditional communication methods in class room, and it enhances student’s learning

Table 73: Distribution of Study Subjects According to the Statement that a good animation can improve the quality of communication by focusing on specificity and accuracy of the course content

Table 74: Distribution of Study Subjects According to the Statement that by learning with animation students will understand or memorize better than traditional methods as it involves audio/visual content.

Table 75: Distribution of Study Subjects According to the Statement that Animation can motivate students for learning.

Table 76: Distribution of Study Subjects According to the Statement that Animation can help To attract the attention of students in class.

Table 77: Distribution of Study Subjects According to the Statement that Animation helps to convert education into ‘edutainment’ (education with entertainment).

Table 78: Distribution of Study Subjects According to the Statement that if we use animation
In education students may concentrate only on entertainment elements, they may
not focus on the actual course content.

Table 79: Distribution of Study Subjects According to the Statement that just playing the
animation content in the classroom without teacher’s assistance will not help students.

Table 80: Distribution of Study Subjects According to the Statement that Animation will be
useful for the students only if the teachers use it as teaching aid in the class.

Table 81: Distribution of Study Subjects According to the Statement that Images, texts,
Sound that are not related to the theme of the lesson, can affect the communication
process in the class.

Table 82: Distribution of Study Subjects According to the Statement that if an animation
contains too much of extraneous material it may affect learning.

Table 83: Distribution of Study Subjects According to the Statement that use of animation for
subjects like Maths which involves formulas will not be as effective as other subjects.

Table 84: Distribution of Study Subjects According to the Statement that use of animation
may overwhelm students in class room but it doesn’t help students to improve
Cognitive process.

Table 85: Distribution of Study Subjects According to the Statement that Animation can
Reduce the cognitive load of the students by presenting the complex concept in
simpler form.

Table 86: Distribution of Study Subjects According to the Statement that If the animation
Content is not designed properly it may affect students learning.

Table 87: Details of ANOVA formula

Table 88: Details of the Z Test Results for the Hypothesis that the Use of Animation as a
Tool of Communication in Education Will Not Have Significant Effect on Improving Student’s Performance

Table 89: Details of the Z Test Results for the Hypothesis that Effectiveness of animation will be similar on both English medium students and Kannada medium students when it is used as communication tool in education.

Table 90: Details of the Z Test Results for the Hypothesis that there won’t be any difference in the effectiveness of animation on performance of rural and urban students when it is used in primary education.

Table 91: Details of the Z Test Results for the Hypothesis that Use of animation will an equal positive effect on the performance of male and female students.

Table 92: Results of the ANOVA test on the hypothesis that Animation will have similar Effect on student’s performance when it is used as a tool of communication in Teaching Mathematics, Science and Language subjects.
