My mark of veneration

I am not a classic writer but this project document called to me to put in place the best of my known words to express my gratitude on the achievement of preparing this document. I never wrote such an acknowledgement in my earlier curriculums and I am exceedingly grateful to those whose contributions made this paper a reality. It has been a gratifying and awe-inspiring experience. They entrusted their knowledge and wisdom to me despite my unproven ability in many of the areas. The experience of meeting each of them itself was a most rewarding part of my thesis. It was an honor and privilege.

Firstly I need to place my deep sense of gratitude to my thesis supervisor Prof. S.R Prabhakaran Nayar, Prof and Head (Rtd), Department of Physics, University of Kerala who graciously opened the doors of his wisdom to me. He believed in my project and offered invaluable guidance and assistance in every step of the way, never once making me feel foolish for my ignorance. I will always be grateful for the opportunity and his faith in me. His constant encouragement, valuable suggestions and deep concern in the progress of my research work made it possible. I am deeply indebted to him for the knowledge and experience I have gained from him during the course of this work.

I would like to express my unequivocal gratitude to Dr. G. Manju (SPL, VSSC), for her invaluable guidance and deep concern in the progress of my work. She has always been a source of inspiration for me. None of this work would have been possible without her positive mentality towards me. Moreover, I have found a mentor and a lifelong friend in her. Your input, advice and guidance are much appreciated. Thank you for the time and insight you gave personally to me.

I cannot say in words my thanks and gratitude to Dr. Smitha V. Thampi (PRL, Ahmedabad) my Smitha chechi. Her in-depth knowledge in magnetosphere-ionosphere coupling, interpretation skills, and MATLAB Programming skills helped me to get published one of my work in Journal of Geophysical Research (JGR). I was awed by her quick grasp of the intricacies and complexities of this project, her patience and, above all, her insightful and creative approaches.. It was a delight to work with her.
I don’t have enough words to express my sincere thanks to Dr. Tarun Kumar Pant and Dr. C. Vineeth (SPL, VSSC), for their constant and valuable support during research days. I express my heartfelt obligation and deep sense of gratitude towards them. It has been a pleasure and an honor to work with them and a special thanks to them for sharing their knowledge – I gained an invaluable understanding and perspective.

I express my deep sense of gratitude to Dr. K Krishna Murthy, Director, and Space Physics Laboratory for his support which enabled me to undertake collaborative work with the scientists there. Your support enabled me to pull everything together and produce the manuscript and I am deeply grateful for their “you can do it and you’ll do it right” attitudes, which motivated me to reach deeper within myself to achieve more than I thought I could.

It is my honor to express my heartfelt thanks to Dr. K Rajeev (SPL, VSSC) for his constant encouragement and support. I also thank him for the discussions, which helped me to improve my understanding about the subject.

I am indebted to Dr. Jacob John Kattakkayam (Former Director Academic staff college University of Kerala) and my brother in law Dr. Saju K Nair for introducing me to my guide and thereby facilitating my entry into this area of research. Thank you for your tireless forthcoming with information and personal accounts.

I cannot ignore and I am rather indebted to Dr. C. Bhuvanendran, Dr. Sreelatha.S., Dr. Dickson Benjamin, Dr. Sreehari C.V. and Dr. M. S. Girija, former Ph. D. students of my guide, for their constant support and encouragement throughout the period of my research. Their encouragement, guidance, and tireless appreciations made this book possible.

I extend my heartiest thanks to Dr. V. Biju (Head, Department of Physics, University of Kerala) for his kind support in completing the course. Thanks are due to former Heads of the Department of Physics – Dr. V. K. Vaidyan and Dr. G. Renuka for providing necessary facilities and support during my tenure as a researcher in the Department. I also extend my thanks to respected teachers
in the Department – **Dr. M Abdul Khadar, Dr. C. I. Muneera and Smt. K. P. Vijayakumari** for their support. I am grateful for their patience and encouragement extended to me time and again.

It is my pleasure to express my gratitude to Mr. **Sumod, Mr. Prijith, Mr. Madhav Haridas, Mr. Lijo Jose, Mridula N and Mrs. M.B. Dhanya** (SPL) for the enlightening discussions, valuable comments suggestions and encouragement.

The warmth, friendship and encouragement from my co-researchers, **Dr. Tiju Joseph Mathew, Anusha M.G., Shibu S., Vijayakrihnan M. V. and Seena P. T.** cannot be forgotten. Thank you so much for the support.

I am glad to give my thankfulness to **C. Geetha and Sisira** (SPL) for helping me to take entry passes during SPL visit.

My sincere thanks also to many others who’s indirectly helped to completed this project and whose names do not appear, I am indebted to them too for the information they graciously shared, providing me a better understanding or leading of knowledge on the subject. Several individuals deserve special thanks I could not have accomplished this project without the moral support of the staff, fellow researchers and students of the Department of Physics, University of Kerala, with whose support this research work was realized. I extend my sincere and deep rooted admiration and indebtedness to all of you.

**My parents** have been an inspiration throughout my life. They have always supported my dreams and aspirations. They never doubted my ability to see this project through and for that I am appreciative. I would like to express my love and gratitude to my parents, my husband **Mr. Sabu K Nair** my son **Akash S Nair** and my mother-in-law for all they have done for me. Finally I thank **God Almighty** for showing the right way.

While I gathered the names and people behind this document, I became increasingly aware of the importance of these people in my dream coming true... Heartfelt thanks to all who generously shared their wisdom. You all are the best! I place my respect to each of you here and thank you so much.

**SIMI K G**
