ACKNOWLEDGEMENT

The most pleasurable aspect of writing a research report is the opportunity it provides to express gratitude to all the persons who have contributed their might and have been a source of encouragement and enlightenment.

Research Projects can neither move in right direction nor come to any meaningful conclusion without the expert guidance. I have been singularly fortunate in getting the patronage of Dr Paramjit Singh, Professor of Chemical Technology and Registrar, Panjab University, Chandigarh. His deep insight into the problem solving, tremendous capacity to conceptualize and erudite scholarship coupled with indefatigable zeal and unflagging patience not only made it possible to benefit from his helpful nurturing but also aroused in me a habit of clear thinking as a researcher.

Professor K.N. Pathak, esteemed Vice Chancellor, Panjab University and a Physicist of international repute always had an inspiring attitude and excellent spirit towards my academic endeavors and provided me the best facilities a researcher could dream of. His academic leadership, benevolence and quest for excellence have been extremely encouraging throughout.

Professor Daljit Singh, Chairman, Department of Chemical Engineering and Technology, Panjab University has always been a source of inspiration and guidance. He was extremely cooperative in taking care of all my research material requirements and placed all his facilities at my disposal.

Professor Jagdish Singh, former Chairman, Department of Chemical Engineering and Technology had always been supportive of all intellectual pursuits and helped generate ambience for academic growth in the department.

I am obliged to all the faculty members of Department of Chemical Engineering and Technology, Panjab University for their whole-hearted encouragement and cooperation. They provided a conducive academic environment for research. I am beholden to the faculty for refining my knowledge of the challenging and rewarding field of chemical engineering and technology.

The library staff of Panjab University, Indian Institutes of Technology, Delhi, Kanpur and Mumbai were highly supportive to my requirements and indulgent enquiries. I owe a debt of gratitude to them.
