ACKNOWLEDGEMENT

I express my deep sense of gratitude to my supervisor, Prof. Ashesh Kr. Das Department of Ecology and Environmental Science for his valuable guidance, constructive ideas, consistent support and kind supervision throughout the course of this research work.

I extend my profound gratitude to Dean, Prof. B. K Dutta, Department of Ecology and Environmental Science; Head, Dr. D.C. Ray, Department of Ecology and Environmental Science and other faculty members of the same department for their kind co-operation and support during the study period.

I wish to express my sincere appreciation and thanks to the facilities provided by the Deptt. of Ecology and Environmental Science during the course of the study.

I am very grateful to the generous attitude and constant help provided by the villagers and particularly Mr. Jagadish Bhar and Mr. Devki Bhar, landholder of the study site for their relentless assistance during the period of my field sampling.

I am sincerely thankful to the technical staffs of the Department of Ecology and Environmental Science for their tremendous support and help throughout my time at the department.

I render my heartiest thanks to all my friends in the department and all other research scholars of the Department of Ecology and Environmental Science for their sincere co-operation and support.

My special appreciation to Tocklai, Tea Research Association, Cachar Advisory Branch, Silcoorie for providing me the meteorological datas.

Finally, I could not have completed this dissertation without the inspiration and encouragement provided by my parents throughout the whole work. I am indebted to my parents for their continuous support and encouragement.

At last but not least I would like to express that without the blessings of almighty, it would not have been possible for me to complete the research work.

Manishor Das
