ACKNOWLEDGMENTS

The author would like to sincerely thank the following people for providing assistance, support, encouragement, and inspiration during the writing of this dissertation. First, I'd like to thank my advisor & my guides Dr.T.S.Kamal & Dr. Deepak Bagai. They have provided guidance, encouragement, opportunities, and knowledge at a level that few advisors are capable of. Their dedication towards students and the field is a true inspiration.

Second, I'd like to thank the other members of my group, Puneet Mahajan, Sanjay Saini and Jayashree Subrahmonia. I'd also like to thank Dr. Aanandan, along with the other members of the Microsoft Project Development Consultancy team, for their support and assistance during their visit to India. They have provided data, financial support and advice that have been extremely helpful in the completion of this dissertation. In addition, I'd like to thank Dr. RajaGopalan, Assistant Professor-IITM for assisting me with his expertise in image restoration and Character Recognition.

I'd like to thank Aditya, Himanshu, Kshitij and Puneet, and few other members of the Pattern Recognition and Image Processing lab, Delhi University. In addition; I'd like to thank the Computer Science Department of Panjab University staff for their valuable assistance. I'd also like to give special thanks to my parents, my wife, and my daughter Aarchishya. They have always been there to support me, and I am very grateful. Finally, I'd like to thank all the friends I have made during the time spent at Punjab Engineering College and Panjab University.
