ACKNOWLEDGEMENT

I am profoundly indebted to Dr. K.K. Aggarwal, Professor and Head of Electronics and Communication Engineering Department, Regional Engineering College, Kurukshetra, for his invaluable guidance, painstaking supervision and constant affectionate encouragement during the period of investigation. Without his meticulous scrutiny, it would just have been impossible for me to bring out this thesis in the present form.

I am also extremely grateful to Dr. J.S. Bajwa, Professor and Head of Electronics and Electrical Communication Engineering Department, Punjab Engineering College, Chandigarh, for his supervision, keen interest and constant encouragement during the period of this work.

My respectful thanks are due to Dr. O.S. Sehgal, Principal, Punjab Engineering College, Chandigarh, for his kind permission to undertake this work and providing the facilities available in the College and the Regional Computer Centre, Chandigarh. I am also thankful to the Chandigarh Administration for extending partial financial assistance for pursuing this research work.

I am thankful to my colleagues Mr. R.K. Tewari and Mr. B.S. Sohi of Electronics and Electrical Communication Engineering Department, Punjab Engineering College, Chandigarh, for helping me in preparing Computer Programmes. I also convey my thanks to my other colleagues and friends for their timely help.
I express my gratitude to my brother, Dr. S.C. Chopra and my brother-in-law Professor R.L. Bagga for inspiring me to do this work. My thanks are also due to my niece Kiran Nanda, for helping me in preparing the drawings.

The acknowledgement will remain incomplete without mentioning the co-operation, patience and moral support rendered by my wife Mrs. Kamlesh and my kids Raman and Pawan during the course of my work at Kurukshetra and Chandigarh.

Last but not the least my thanks are due to Mr. K.S. Saini of Regional Engineering College, Kurukshetra, for patiently and skillfully typing this thesis in the present form.
