ACKNOWLEDGEMENTS

I express my deep sense of gratitude to my supervisor Prof. Ashesh Kumar Das, Reader, Department of Ecology and Environmental Science for his valuable guidance, constant encouragement and constructive criticisms throughout the course of this study and for going through the manuscript. I shall always remain obliged to him for his sincere help and generosity.

Sincere thanks are due to Prof. (Mrs.) Gitasree Das, Head, Department of Statistics, North Eastern Hill University, Shillong for her encouragement, suggestions and outstanding inspiration.

I extend my profound gratitude to the faculty of the Department Prof. B. K. Dutta, Prof. A. Gupta, Dr. D.C. Ray, Dr. S.C. Garkoti, Dr. (Mrs.) J. Rout and Dr. (Mrs.) S. Gupta for their encouragement. I am also ever grateful to all the non teaching staff of the Department for their help, encouragement and inspiration. Departmental facilities provided by the Department of Ecology and Environmental Science are gratefully acknowledged.

I am thankful to Dr. R. L. Banik, consultant with the National Mission on Bamboo Application (NMBA), New Delhi, Dr. (Mrs.) K. K. Seethalakshmi and Dr. M.S. Muktesh Kumar, Scientist, Kerala Forest Research Institute, Peechi for their help and support in the course of the research work.

My special appreciation goes to Mr. Ranabijoy Gope, Research Scholar, Department of Ecology and Environmental Science for his extended help and support in field and laboratory analysis.

It is my bliss to concede heartfelt appreciation to Mr. Partha Pratim Bhattacharjee, Mr. Sanjay Kanti Das, Mr. Kulendra Chandra Das, Mr. Pulak Das and Miss Tapasi Das, Mrs. Monoshree Paul research scholars of the Department who have extended their cooperation in the course of my research work.
I am also grateful to Dr. D. Adhikari, Dr. S. Deb, Dr. S. Roy, Dr. Tapati Das, Mr. Ashish Paul, Mr. Shivaji Choudury, research scholars in the Department of Forestry, NERIST, Itanagar and G. B. Pant Institute of Himalayan Environment and Development, Itanagar for their cooperation.

It is my bliss to concede heartfelt appreciation to Miss Indrani Mukherjee of the Department of Ecology and Environmental Science for her extended cooperation in the course of my research work.

I also thank the field assistant Bikram Mala and Jagdish Bhor for their assistance in field. My special thanks are also due to the villagers of Irongmara and Dargakona for their kind help and coordination throughout the period of my field study.

It would have been impossible to complete the study without the encouragement, inspiration and support of my mother Late Geeta Nath and father Sumesh Nath. I am indebted to my elder brother and younger sister with their bigheartedness and kind support backed up throughout the completion of this thesis.

Financial support received from the Department of Science and Technology, New Delhi, India and G. B. Pant Institute of Himalayan Environment and Development, Almora, India in the form of Junior Research Fellowship is thankfully acknowledged.

(Arun Jyoti Nath)
