ACKNOWLEDGEMENTS

I express my deep sense of gratitude to my supervisor Dr. Ashesh Kumar Das, Department of Ecology and Environmental Science for his valuable guidance, constant encouragement and constructive criticisms throughout the course of this study and for going through the manuscript.

I am extremely grateful to my joint supervisor Dr. A. Arunachalam, Department of Forestry, NERIST for suggesting me the problems and rendering priceless guidance. His brilliant suggestions, positive criticism and motivating discussions steered me all along my research work. I shall always remain indebted to him for his sincere help and generosity.

Sincere thanks are due to Dr. (Mrs.) P. Rethy, Head, Department of Forestry (Faculty of Applied Sciences) NERIST, Nirjuli for extending all laboratory facilities for analytical and experimental works involved in this work.

I extent my profound gratitude to my teachers like Dr. (Mrs.) K. Arunachalam, Dr. M.L. Khan, Dr. (Mrs.) U. Melkania and Dr. (Mrs.) K Shrivastava for their constant encouragement. I am also ever grateful to all the teaching staff of the Forestry Department, NERIST and Assam University, Silchar for their help, encouragement, suggestions and outstanding inspiration.

I am thankful to Dr. K. Haridasan, Scientist, State Forest Research Institute and K. I. Singh, Research Scholar, GBPIHED, Itanagar for helping me to identify the plant specimens. I am also thankful to P. Rathore, Technician, Central Research Facility (CRF), NERIST for extending different instruments for analytical work of soil and plant samples.

My special appreciation goes to Mr. Sumpam Tangjang, Lecturer, Rajiv Gandhi University, Itanagar for his kind collaboration and support in completion of the thesis.

It is my bliss to concede heartfelt appreciation to the laboratory colleagues who have extended their cooperation especially Dibyendu Adhikari,
A.R. Barbhuiya, Ashish Paul, Tapati Das, Samiran Roy, Baharul Islam Choudury, Dr. Ashalata Devi, Mritunjoy Majumder, Lal Bihari Singh, Kuldip Gosai and Sancheta Brahma. Further, my sincere appreciation is extended to all the members of Forestry Research Laboratory, NERIST for their help and support.

I am also grateful to Ronobijoy Gope, Arunjyoti Nath and all other research scholars and technical staffs of Ecology Department, Assam University for their cooperation.

I also thank the field assistant Mr. Moharam Ingti, Jadav Saikia and Bijit Basumatari, for their assistance in field and in the laboratory work. My special thanks are also due to the villagers of Harmutty, Nirjuli and Doimukh for their kind help and coordination throughout the period of field samplings.

I would have been impossible to complete the study without the encouragement, inspiration and support of my parents. I am indebted to my two elder brothers and sister's in law with their bigheartedness and kind support backed up throughout the completion of this thesis. I am also thankful to my cousin brother Dr. Bibhas Deb for his encouragement during my each and every steps of life. In nutshell, I feel elated and truly blessed to have them in my life.

Financial support received from the Indian Council of Agricultural Research (ICAR), Govt. of India, New Delhi, in the form of Senior Research Fellowship is thankfully acknowledged.

(Sourabh Deb)
